**The Company is proposed to be listed at the Pakistan Stock Exchange Limited**

**Risk Factors:**

- a) Export oriented IT companies are enjoying favorable tax treatment (Details given at section 3.31). Any change in tax treatment for export-oriented IT companies may impact the net profitability of the Company adversely.
- b) The Company plans to utilize the IPO proceeds to develop intellectual properties (IPs) which requires certain expertise and skills. The Company has not engaged, nor intends to engage, any external company and will utilize its own human resource to develop IPs (Both existing and new hiring). There is a risk that lack of requisite in house expertise could impact project costs and implementation timelines.
- c) Project costs relating to development of IPs is based on management estimates. Increase in actual cost in comparison to estimate may affect the project implementation timelines and future profitability.
- d) No third-party demand assessment for IPs is carried out and same is based on management expertise. Lower than foreseeable demand of IPs may impact trajectory of profits and Return on Equity.
- e) For the FY22, revenue from major customers of the Company i.e. HBL (FY21: PKR 59 million – FY22: PKR 32 million) and Procter and Gamble (FY21 : PKR 52 million – FY22 : PKR 30 million) has declined. Future profitability may be affected if declining trends continue and the Company does not capture additional revenue from existing business lines and/ or IPs.
- f) Digital marketing and technology sector is less capital intensive; coupled with low barriers to entry and facilitation by the Government of Pakistan to promote IT sector. New entrants may impact profitability margins of the Company.

**UNDERTAKING BY THE CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER OF THE COMPANY**

- 6) NO CHARGES, FEE, EXPENSES, PAYMENTS ETC. HAVE BEEN COMMITTED TO BE PAID TO ANY PERSON IN RELATION TO THIS PUBLIC OFFERING EXCEPT FOR THOSE AS DISCLOSED IN THIS PROSPECTUS.

**e-IPO facility**

the extent that the total number of shares Issued under the Book Building Portion are subscribed.

e-IPO refers to electronic submission of applications for subscription of securities offered in an IPO. The following systems are available for e-IPOs:

**(i) PSX's e-IPO System (PES):**

In order to facilitate investors, the Pakistan Stock Exchange Limited ("PSX") has developed an e-IPO System ("PES") through which applications for subscription of securities offered to the general public can be made electronically. PES has been made available in this Issue and can be accessed through the web link (<https://eipo.psx.com.pk>). Payment of subscription money can be made through 1LINK's and NIFT's member banks available for PES.

For making application through PES, investors must be registered with PES. The PES registration form is available 24/7, all throughout the year. Registration is free of cost and can be done by:

- the investor himself, or
- the TREC Holder with whom the investor has a sub-account, or
- the Bank with whom the investor has a bank account.

Tutorial relating to submission of application through PES is available on <https://eipo.psx.com.pk/EIPO/home/index>

Similarly, an e-IPO application can be filed by:

- the investor himself, or
- the TREC Holder with whom the investor has a sub-account, or
- the Bank with whom the investor has a bank account.

For further guidance and queries regarding PES, investors may contact PSX at phone number: 111-001-122, or contact Mr. Farrukh Shahzad at phone no. (021)-35274401-10 and email: [itss@psx.com.pk](mailto:itss@psx.com.pk).

Investors who are registered with PES can submit their applications through the web link, <https://eipo.psx.com.pk>, 24 hours a day during the subscription period which will close at midnight on 09/08/2023.

**(ii) Centralized e-IPO System (CES):**

In order to facilitate investors, the Central Depository Company of Pakistan ("CDC") has developed a Centralized e-IPO System ("CES") through which applications for subscription of securities offered to the general public can be made electronically. CES can be accessed through the web link ([www.cdceipo.com](http://www.cdceipo.com)). Payment of subscription money can be made through 1LINK's member banks available for CES.

For making application through CES, investors must be registered with CES. Registration with CES is free of cost and can be done under a self-registration process by filling the CES registration form, which is available 24/7 all throughout the year.

In addition to the above, sub-account holder(s) can request their respective TREC Holders who are Participants in Central Depository System (CDS) to make electronic subscription on their behalf for subscription of securities of a specific company by authorizing (adding the details of) their respective Participant(s) in CES. Consequently,

authorized Participants can electronically subscribe on behalf of their sub-account holder(s) in securities offered through Initial Public Offerings (IPOs) and can also make payment against such electronic subscriptions through all the available channels mentioned on CES only after receiving the subscription amount from the sub-account holder(s). To enable this feature, the CDS Participant may request CDC to activate his ID on the CES portal. The securities will be credited directly in Investors' subaccount. In case the sub-account of the investor has been blocked or closed, after the subscription, then securities shall be parked into the CDC's IPO Facilitation Account and investor can contact CDC for credit of shares in its respective account

Investors who do not have CDS account may visit [www.cdcpakistan.com](http://www.cdcpakistan.com) for information and details.

For further guidance and queries regarding CES and opening of CDS account, investors may contact CDC at phone number: 0800 – 23275 (CDCPL) and e-mail: [info@cdcpak.com](mailto:info@cdcpak.com) or contact Mr. Farooq Ahmed Butt at Phone 021-34326030 and email: [farooq\\_butt@cdcpak.com](mailto:farooq_butt@cdcpak.com).

Investors who are registered with CES can submit their applications through the web link [www.cdceipo.com](http://www.cdceipo.com) 24 hours a day during the subscription period which will close at midnight on 18/08/2023.

#### 3.2. COMPANY OVERVIEW & DESCRIPTION OF THE BUSINESS

Symmetry Group Limited is a Digital Technology and Experiences Company that specializes in digital products and services. The prime focus of the Company is on marketing tech and digitalization of marketing, sales and other consumer facing functions of organizations.

The roots of the Company can be tracked back to “The Symmetry”, a sole proprietor concern established in 2003 by Mrs. Faiza Sarocsh Ahmed. The Symmetry is considered to be amongst the first full service interactive marketing agencies in Pakistan which aids in preparing marketing content for its customers and also helps in running ads through various platforms. In the year 2009, Mr. Sarocsh Ahmed and Mr. Adil Ahmed formed a new company, Symmetry Digital (Pvt.) Limited, which acquired The Symmetry from Mrs. Faiza S. Ahmed at a cost of PKR 42,777,721.

In 2010, in order to increase the market share, the Board of Symmetry Digital Private Limited decided to form a new company as a wholly owned subsidiary of Symmetry Digital Private Limited. This new company was called Creative Jin (Pvt.) Limited. In 2012, the Symmetry Digital Private Limited, decided to establish the 2<sup>nd</sup> wholly owned subsidiary under the name of ‘Iris Digital (Pvt.) Limited.

At the same time, another entity under the name of **Symmetry Group (Pvt.) Limited** (The “Company”) was also incorporated which then became the holding company of Creative Jin (Pvt.) Limited, Iris Digital (Pvt.) Limited and Symmetry Digital (Pvt.) Limited. The Group including Symmetry Group Limited and its two subsidiaries i.e., Iris Digital Pvt Limited and Symmetry Digital Private Limited provide all services except for exports which is provided by Symmetry Group Limited.

In 2017, Symmetry Group (Pvt.) Limited was converted into a public unlisted Company. In 2021, Symmetry Group Limited decided to close Creative Jin (Pvt.) Limited and transfer its business into the Company. Today, there are three (3) operating companies within the group, including i.e. (i) Symmetry Group Limited (the Parent) ii) Symmetry Digital (Pvt.) Limited (subsidiary); and (ii) Iris Digital (Pvt.) Limited (subsidiary) . The Company operates two (2) subsidiaries primarily to capture business from competing clients who mostly have a policy of not working with the same vendor due to highly confidential nature of their information and hence this structure of subsidiaries allows the Company to operate competing clients simultaneously. The companies within the digital industry operate in a similar framework whereby the C-suite management remains the same for subsidiaries, while segregation is done on operations level.

### 3.14. KEY REVENUE DRIVERS

This section details the drivers that are expected to help increase revenue of the Company. All these drivers define how the digital technology market is growing in terms of users and value. This poses a great opportunity that SGL has incorporated in its business plan to grow its revenues, both locally and globally.

#### 3.14.1 INCREASING PENETRATION OF INTERNET & MOBILE

The annual cellular subscribers in Pakistan have increased from 140.46 million to 195.26<sup>1</sup> million up till FY22 growing at a 5-year CAGR of 6.8%.

Digitalization is undertaken on the back of mobile penetration. The higher number of users using mobile phones, the greater the number of potential markets. Similarly, higher usage and penetration of cellular subscribers would mean enhanced target market for digital ads. Due to this growth in market size, there will be increased demand for development of mobile apps, web applications, and other digital experiences. Similarly, the advertisers will direct more of their advertising spend towards the digital mediums.

SGL can utilize this opportunity to increase its revenues from services such as digital consultancy, design and development, and digital advertising etc.

### 3.14.2. DIGITAL COMMERCE ON RISE

Digital commerce is the buying and selling of goods and services using digital channels such as Internet, mobile networks and commerce infrastructure. The Covid-19 pandemic pushed digital commerce front and center for both B2B and B2C buyers, driving half of shoppers to buy products they have never bought online before.

Pakistan is the 37th largest e-commerce market. The e-commerce market in Pakistan is growing; revenue is expected to show an annual growth rate of 6.09 percent between 2022 and 2025, resulting in a projected market volume of USD 9.1 billion by 2025<sup>2</sup>

SGL's commerce vertical can benefit from this growth and increase its revenues especially by on boarding maximum number of exporters on Alibaba.com and providing them with ancillary services, product listing, and maintenance of online stores.

### 3.14.3. SHIFT IN ADVERTISING SPEND TO DIGITAL MEDIUMS

Digital advertising has led all industries to move fast to reach out to larger target audiences in a more efficient and effective way. Hence, advertisers today are shifting their advertising budgets from print and other traditional mediums to the digital medium.

According to the latest advertising expenditure forecast compiled by Zenith\*, digital advertising is expected to increase to approximately 65% of total ad spend in 2024. Increased adoption of e-commerce has accelerated the rise in digital ad spend, which grew by 20% year-on-year in 2022<sup>3</sup>.

The rise in digital ad spending is an opportunity for the interactive division of SGL to increase revenues out of its digital advertising and allied services. SGL has shown significant revenues from digital advertising and is expecting to maintain its historical growth trends in the foreseeable future.

### 3.14.4. BIG DATA

Big data analytics enable marketers in detecting consumer behavior, discovering shopping patterns, improving quality of customer service, and targeting the right audience for advertising.

Retail analytics focuses on providing insights related to sales, inventory, customers, and other important aspects crucial for merchants' decision-making process. The retail analytics market is predicted to increase due to the growing e-commerce sector, digitization of retail stores, and their implementation of analytics for better and more tailored experiences, simple access to product information, and superior services<sup>4</sup>.

It can be used for customer segmentation, customer loyalty analysis, pricing analysis, cross selling, supply chain management, demand forecasting, and market basket analysis etc.

The global big data market in terms of revenue was estimated to be worth USD 162.6 Bn in 2021 and is poised to reach USD 273.4 Bn by 2026 growing at a CAGR of 11% from 2021 to 2026<sup>5</sup> out of which the global retail analytics market stood at USD 5.20 billion in 2020 and is projected to grow to USD 18.33 billion in 2028 at a CAGR of 19.7% in forecast period, 2021-2028<sup>6</sup>.

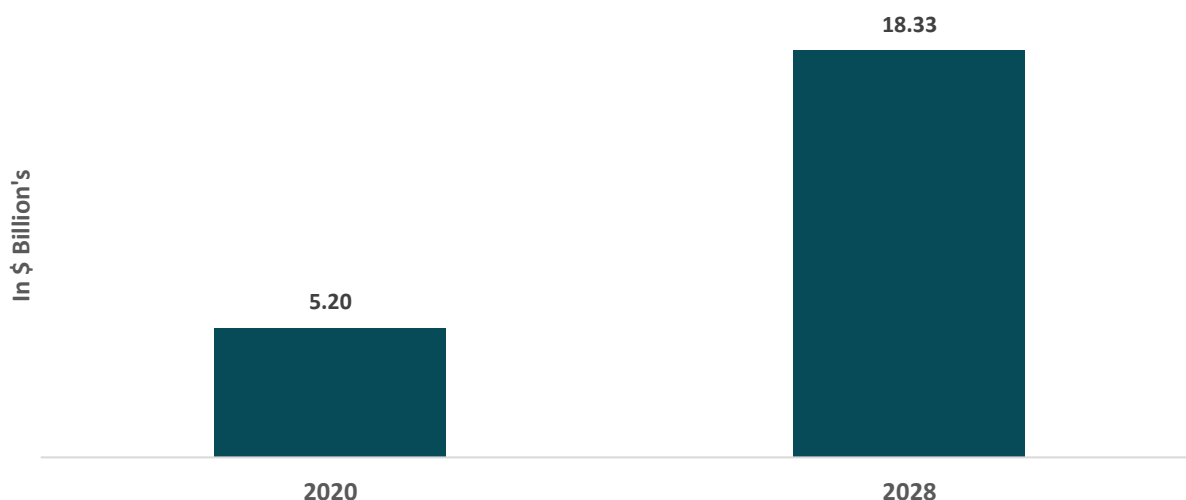

With an identified gap in the local market and following the global trend, SGL is eyeing to venture extensively into the big data and analytics market through the launch of its IPs.

## 3.14.5 DIGITALIZATION DRIVE

**Digital Pakistan Policy** a key enabler document was approved by Government of Pakistan (GOP) in July, 2018. GoP is also providing enabling policies and regulations for the ICT (Information and Communications Technology) sector to help the private sector improve its efficiency and compete in the global markets. The policy is further aimed at increasing IT exports to \$30 billion by 2030, promoting cloudification by shifting all government services to Cloud, and ensuring internet access to every citizen by 2025. In addition to this, there are several other draft policies available which depicts the intent of the GoP to improve digital penetration in Pakistan. The policies can be viewed at the website of Ministry of IT & Technology

GoP's drive to enhance IT exports and to increase the number of internet users will lead to increased demand for transformation and interactive services such as development of mobile apps and websites, digital advertising, animations and content creation etc. This provides SGL with an opportunity to increase its revenues in this space.

### Explanation of Key Cost Drivers

Cost of Revenue	Explanation
Media Buying	It is the process of purchasing placements for advertisements on websites, apps and other digital platforms. Advertisers frequently use platforms such as Google, Meta, Instagram, ESPNcrinfo, Tik Tok etc. to run their advertising campaigns.
Digital Services: <ul style="list-style-type: none"> <li>▪ Internet Hosting</li> <li>▪ Domain Registration</li> <li>▪ Third-Party Software</li> </ul>	<p>This contains cost of Internet Hosting and Domain Registration.</p> <p><b>Internet Hosting</b> is a service that runs servers connected to the Internet, allowing organizations and individuals to serve content or host services connected to the Internet. Most basic example of this service is hosting of websites and mobile apps. Service Providers like Rapid Compute and Amazon Web Services are providing hosting services in the local and global markets.</p> <p>The process of acquiring a domain name from a domain name registrar is called <b>Domain Registration</b>. Registrar.com and enom.com are the leading global players in this space.</p> <p>Purchase and subscription of <b>Third-Party Software</b> including platforms, tools, APIs, access to databases etc. are often required for development and operations of products offered by the Company. Asana, Hootsuite, Mailchimp, Microsoft Corporation, Zapier and Zendesk are some of the players providing this software.</p>
Content creation	Costs under this category majorly involve talent acquisition, hiring of influencers, use of production facilities, sound studios, voiceovers and various other similar services and products that are required for creation of content.

### 3.19. DEMAND FOR THE PRODUCTS

#### Increasing E-Commerce

Pakistan is the 37<sup>th</sup> largest market for eCommerce with a total revenue of USD6 billion in 2021<sup>7</sup>. With an increase of 45%, the Pakistani eCommerce market contributed to the worldwide growth rate of 29% in 2021. Wide availability of internet and the onset of COVID-19 pandemic has led to increased demand for Pakistan eCommerce market place. As per Ecommerce DB, revenue of eCommerce is expected to grow from the current USD6 billion to USD9 billion in 2025<sup>8</sup>. The number of eCommerce users is expected to reach 65.1 million users by 2025 with an average revenue per user (ARPU) of USD140. This will help the Company's revenue in products such as Symmetry Trade.

Future potential of this market is huge as there are 193 million cellular subscribers (87.95% Tele density) in Pakistan as per Pakistan Telecommunication Authority (PTA). Out of these, 113 million users are 3G/4G subscribers (51.43% penetration). Overall broadband penetration is also on the rise as broadband internet users have now increased to 116 million in March 2022 vs. 101 million users in May 2021 as per PTA<sup>9</sup>.

**3.22. DETAILS OF MATERIAL PROPERTY**

Symmetry Group Limited does not own any material properties.

**3.23. FUTURE PROSPECTS AND DEMAND OUTLOOK****3.23.1. Rising Digital Marketing Spending & Growing Young Population**

Digital marketing spending has been in limelight over the last few years as companies look to draw strong social media traction.

Digital Marketing Spending clocked in at Rs17 billion in FY21 vs. Rs14 billion in FY20 as per Aurora magazine\*. With a total population of 223 million and around 94.15 million people concentrated in urban areas, the scope for further digitalization seems vivid<sup>13</sup>. Currently there are 71.70 million active social media users in Pakistan as of Jan 2023<sup>14</sup>. Going forward, this number is expected to follow a positive trajectory as ~34.82% of the population is aged between 0-14, while ~60.83% is in the range of 15-64, and ~4.35% is in the range of 65 years or older<sup>15</sup>, thus providing room for further digital penetration with higher proportion of younger population.

(\*Aurora is founded by the Dawn Media Group and is Pakistan's leading advertising, marketing and media magazine)

**3.23.2. Changing Customer Behavior**

COVID-19 was largely perceived as a blessing in disguise for the e-commerce market as nationwide lockdowns put families at home and gave boost to e-commerce market. This was substantiated by Pakistan's e-commerce ranking which improved to 37<sup>th</sup> in CY21 from 46<sup>th</sup> in CY20 where the size of e-commerce industry grew by 45% in 2021<sup>16</sup>.

**3.23.3. Digitization Initiatives by Government of Pakistan**

Apart from the youth bulge and evolving consumer preferences, Government of Pakistan is also striving for digital penetration in Pakistan through introducing several policies and bills which can be viewed at the website of Ministry of IT & Technology.

Some of the approved policies by the GOP are as follows:

- Pakistan Cloud First Policy
- National Cyber Security Policy (Subject to inclusive review after every three years and as when required)
- Rolling Spectrum Strategy

### 3.30.2. IT AND STRATEGY CONSULTING IN PAKISTAN

#### ▪ Industry Disruption

Digital technologies are set to transform industries across Pakistan. Pakistan is advancing its societal, economic and digital ambition, as outlined in Digital Pakistan Vision of Government of Pakistan. By 2023, the economic contribution of the mobile industry in Pakistan is expected to reach USD 24 billion, accounting for 6.6% of GDP<sup>21</sup>.

Digital platforms, such as mobile services, have become the primary channel for a growing number of citizens to access public and private services, especially during the pandemic. With a population of approximately 220 million, and more than 100 million people under the age of 25, Pakistan is well positioned to play a growing role in the global economy over the next decade. Pakistan's mobile market has experienced rapid development over the last decade, playing a significant role in Pakistan's growth. In 2018, the total economic contribution of the mobile ecosystem was worth USD 16.7 billion<sup>22</sup>, equivalent to 5.4% of GDP. This is forecasted to increase up to USD 24 billion in 2023, due to productivity benefits from increasing mobile internet penetration

Major sectors that have already experienced disruption in Pakistan as people adopted more to digital access for availing service include:

- Banking<sup>23</sup>
- Retail<sup>24</sup>
- Food Industry<sup>24</sup>
- Logistics<sup>25</sup>
- Transportation<sup>26</sup>

Such disruption will pave the way for Company to increase its revenue within all spheres. For example, higher penetration of mobile phones within Pakistan will increase the target market for running digital ads and would enhance the revenue stream of the Company. Similarly, it will also be helpful for the new IPs being developed by the Company in terms of offering the products to the wide range of clients who will be adapting to such digital disruption and increased needs of gaining insightful data based and AI driven insights.

### 3.30.3. RISE OF E-COMMERCE

Pakistan is the 37th largest market for eCommerce with a revenue of USD 6 billion in 2021,<sup>27</sup>. With an increase of 45%, the Pakistani eCommerce market contributed to the worldwide growth rate of 29% in 2020. Revenues for eCommerce continue to increase. New markets are emerging, and existing markets also have the potential for further development.

### 3.30.4. EXPORTS OF IT SERVICES

Pakistan's IT exports increased by 24%<sup>28</sup> to USD 2,618 million during FY22 compared to PKR 2,108 million during FY21. The share of IT exports in the overall exports related to the services sector is around 38%<sup>29</sup>. There has been an exponential growth of the IT industry, as reflected in its exports, during the last five years with a CAGR of 23%. The country has the vast potential for increasing IT exports in future. The Pakistan Export Software Board hopes that IT

exports will reach USD 5 billion by 2025 and USD 10 billion by 2030. These targets can be achieved if start-ups and exporters are facilitated by the government.

The ICT (Information and Communications Technology) sector in Pakistan has continued to grow, providing quality services at affordable prices to the public. The World Economic Forum ranked Pakistan among the best countries in terms of affordability of ICT (Information and Communications Technology) services.<sup>30</sup> Regulators have continued to play their pioneering role in the country’s digital transformation while also supporting the economy. Information technology has assumed an enabling role in the emerging dynamics of a knowledge society and knowledge economy. It is a key lever of economic development. Pakistan’s IT sector has a promising future, brimming with talent, and with the potential to become the largest export industry of the country.<sup>31</sup> The Company currently exports services to UAE, USA, and St Lucia.

### 3.31. CHALLENGES TO THE LOCAL IT INDUSTRY

#### ▪ Cyber Security

Since the mid-1990s, the Information and Communication Technologies (ICTs), particularly internet, have increasingly become a key part of the social life. The fast-growing internet technologies are transforming the efficiencies of various spheres of human life — business, work, governance, security and politics. However, along with bringing advantages, the ICTs tend to pose cyber threats to individual and national security. Cyber threats vary in terms of degree of severity ranging from hacking, espionage and information warfare to cybercrime, cyberterrorism and cyberwarfare. In terms of motivation, they may be related to politics, security, economics, ethnicities or cultures. Pakistan had a poor record on cybersecurity, ranking 79th in the International Telecommunication Union’s (ITU) Global Cyber Security Index<sup>32</sup>.

#### ▪ Regulatory

Challenging economic conditions, the need for financial stability and operational resilience, changing consumer demands and behaviors, and environmental, social and governance (ESG) concerns are influencing regulatory agendas around the globe. There is uncertainty with the tax reforms and tax framework in Pakistan which could hinder the growth of IT sector and restrict new entrants.

The tax framework for local IT service provider is as follows:

Small Company	Other than Small Company	Individuals/ AOP with more than Rs.100 million turnover	Individual/AOP with Less than Rs.100 million turnover

Pakistan Software Export Board (PSEB) registered Businesses & Freelancers: Final Tax Regime (FTR) with tax rate of 0.25% of the export proceeds of the companies

Not registered with PSEB: FTR with Tax Rate of 1% of Export Proceeds

#### ▪ Scarcity of Trained Human Resource

Pakistan has a large labor force that stands among the top 10 largest labor forces in the world, and it is growing rapidly. There is an increased need of more skillful and trained human resource for the IT sector as the sector is continuously evolving.

#### ▪ Privacy Laws

With an increasing trend of social and economic activities, the importance of privacy and data protection is being increasingly recognized. Of equal concern is the collection, use, and sharing of personal information with third parties without the notice or consent of consumers. The nature of the business, for example creation and maintenance of website of financial institutions, exposes the Company to deal with sensitive data. However, the Company has strong protocols in place to ensure protection of data.

### 3.32. EXPORT POTENTIAL

Due to relatively low cost of skilled labor compared to peers, and high youth population, Pakistan is gaining edge in IT exports. Pakistan's IT exports increased by 24% to USD 2,618 million<sup>33</sup> during the FY22. Moreover, during the last five years, the exports have increased at a CAGR of 23%.

### 3.33. IMPACT OF COVID-19 ON THE DIGITAL MARKETING INDUSTRY

The Covid-19 pandemic resulted in increase in online traffic due to remote working by the population at large. The large increases in online traffic provide opportunities for companies to keep their target audience engaged through digital marketing initiatives. While overall marketing spending declined due the pandemic-induced cuts in marketing and advertising budgets during the lockdown, available budgets were being directed at digital marketing initiatives. In addition, advertisers are realizing higher returns on their investments owing to lower competition for advertising space.

Amid the COVID-19 crisis, the global market for Digital Advertising and Marketing estimated at USD 350 billion in the year 2020, is projected to reach a revised size of USD 786.2 billion by 2026<sup>34</sup>, growing at a CAGR of 13.9% over the analysis period.

### 3.34. GROWTH AND FUTURE OUTLOOK

#### ▪ TRANSFORMATION

Pakistan is an emerging economy, with digital technologies beginning to transform the way people live and work. For a growing number of citizens, digital platforms have become the primary channel for accessing public and private services – a trend particularly evident in the retail, transport and banking sectors.

<sup>33</sup> SBP Economic Data

<sup>34</sup> www.globenewswire.com.

However, Pakistan still has a sizeable ‘coverage gap’ and lags behind peers in certain areas<sup>35</sup>. Pakistan also scored 39.8 in the Global System for Mobile Communications’ (GSMA) latest Mobile Connectivity Index, compared to an average of 45.7 for South Asia.<sup>36</sup>

There is a significant economic prize attached to accelerating Pakistan’s digital transformation. If fully leveraged by 2030, digital technologies could create up to PKR9.7 trillion (USD59.7 billion) in economic value<sup>37</sup>. This is equivalent to about 19% of the country’s GDP in 2020. The sectors projected to be the largest beneficiaries are agriculture and food; consumer, retail and hospitality; and education and training. For example, machine learning algorithms have shown to be beneficial for the agricultural and food sector, where AI-powered technologies can monitor ecological conditions to determine whether crops need irrigation or not, reducing water use<sup>38</sup>.

#### ▪ INTERACTIVE MARKETING

Social media is quickly becoming one of the most crucial digital marketing aspects, which offers enormous benefits to help reach millions of customers worldwide. Social media is becoming a profitable source, offering wide marketing opportunity, allowing marketers to spread the word about their products and services easily.<sup>39</sup>

It is expected that by 2023, advertisers in Pakistan are forecasted to spend PKR 100 billion<sup>40</sup>, of which digital – search, mobile, online video, social media – will make up 49% of advertiser marketing budgets in Pakistan, while the remaining the remaining components of the media mix, namely TV, print, OOH, activations, and radio will make up the remainder 51% at 21.4%, 11.7%, 8.7%, 6.4%, and 2.7% respectively<sup>41</sup>.

#### ▪ DIGITAL COMMERCE

Global forecasts show that by 2040, 95% of all retail sales will be made online<sup>41</sup>. Similarly, where global growth used to be driven by a domestic buyer buying from a domestic seller, the dynamics have shifted as purchase from foreign sellers on the e-commerce platform increased from 15% to 21%. This increase in buyers demanded that all businesses make tough decisions, adapt, and most importantly think on their feet. The eCommerce net sales of the top 100 Pakistani online stores accounted for about USD 645 million in 2021<sup>42</sup>.

#### ▪ MOBILITY

Nearly two years after the onset of COVID-19, one conclusion is clear—digital transformation has changed from a needed priority into a global imperative for all. Businesses, governments, education institutions, and individuals all rapidly shifted their processes online in the wake of lockdown measures. The overnight shift towards virtual living and working heightened our reliance on digital technologies and increased the demand for network infrastructure, reliable connectivity, and digital literacy.

Despite the rising need of digitalization in Pakistan, it still ranks behind its peers. Pakistan ranks at 97 as per Global NRI (Network Readiness Index)\*. Although it is early to predict the full impact of the digital change induced by COVID-19. The table implies that there is ample room for country to witness impact of digitalization.

Global Network Readiness Index						
Country	Score	Rank	Technology	People	Governance	Impact
India	49.74	67	49.24	45.96	48.71	55.07
Egypt	47.56	77	42.49	45.54	46.86	55.36

Pakistan	40.25	97	41.86	34.19	37.66	47.3

\* The Networked Readiness Index is an index published annually by the World Economic Forum in collaboration with INSEAD, as part of their annual Global Information Technology Report. It aims to measure the degree of readiness of countries to exploit opportunities offered by information and communications technology

### 4.4. BREAKUP OF INTELLECTUAL PROPERTIES

**Basis of estimation:** The cost of IPs have been determined by categorizing the development of IP into several phases and allocating the costs on a man hour basis and management's estimates and experience. Man-hours, also called person-hours, are the unit of measure that is used in project management to measure the efforts needed to complete a task.

The description of each activity which is among all IPs is provided below:

Particular	Description
Discovery	Discovery is the process of identifying, capturing and assessing different types of registered and unregistered IP (patents, trademarks, copyright, designs, domain names, and trade secrets).
Functional Specifications	It is a formal document used to describe an IPs intended capabilities, appearance, and interactions with users in detail for software developers.
Solution Architecture	Solution architecture in an IP is the practice of designing, describing, and managing solution engineering to match it with specific business problems.
UI / UX Design	IP UX design is about identifying and solving user problems; for example, creating intuitive & interactive interfaces.
Database Design	Database design in an IP is the organization of data according to the requirements of the IP's database model. The designer determines what data must be stored and how the data elements interrelate.
Coding	Coding tells a machine which actions to perform and how to complete tasks. Programming languages provide the rules for building websites, apps, and other computer-based technologies.
Security Implementation	To protect intellectual property rights through Patent, Copyright, Trademarks, Trade Secrets, Industrial and Layout Designs etc.
QA	Quality Assurance (QA) is a common practice to ensure that the IP conforms to the overall and scope-agreed expectations.
UAT	User acceptance testing (UAT), also called application testing or end-user testing, is a phase of IP development in which the IP is tested in the real world by its intended audience.
Commissioning	Commissioning in an IP is the process of planning, documenting, scheduling, testing, adjusting, verifying, and training, to provide a facility that operates as a fully functional system per the Owner's Project Requirements.
Improvements	IP Improvement means any invention, discovery, upgrading or modification and all other Intellectual Property Rights whether patentable or not.
Project Manager	project managers (PMs) are responsible for planning, organizing, and directing the completion of IPs for an organization while ensuring these IPs are on time, on budget, and within scope.
Project Lead	a project leader can effectively make plans that support IP related goals and lead their team to perform efficiently.

#### 4.10. BASIS OF ESTIMATION OF MARKETING & BUSINESS DEVELOPMENT

Term	Explanation
Inventory	Inventory is the amount of ad space (or the number of advertisements) that a publisher has available to sell
Impressions	An impression (also known as a view-through) is when a user sees an advertisement. In practice, an impression occurs any time a user opens an app or website and an advertisement is visible
Views	Views are the number of times visitors watch or engage with your digital content
Installs*	An install takes place when a user has downloaded an app and successfully opens it for the first time

The estimated costs for marketing and business development are based on the costs of advertisement on leading platforms such as Google, Meta (Meta) and Instagram, and based on purchase of inventory on website that a publisher has available to sell and based on management's experience and operating such activities for their clients.

The Company will be using a mix of marketing channels to market its products and services. The marketing campaigns will be built around spreading awareness of the products and services and attracting consumers to download the app and build demand for repeated use of the platform. Branding Campaigns\*\* will include advertising on leading digital and social media platforms such as Google, Meta (Meta) and Instagram. Below the line (BTL)\*\*\* activities will include installing kiosks at mega stores & malls, customer incentive schemes such as instant mobile top-ups and prizes etc.

The Cost per thousand (CPM), Cost per view (CPV), and Cost per Install (CPI) rates of Inventory buying for digital advertising are benchmarked conservatively against industry averages, while the cost of BTL activities is based on best estimates.

\*Installs will be targeted for Mobits

\*\* Branding Campaigns will be for all five IPs i.e., Influxsense, Cartisight, Corral, Mobits, and Survit

\*\*\*BTL activities will be targeted towards Cartisight

#### 4A VALUATION SECTION

Symmetry Group Limited is considered a key player in the digital tech sector. The Company through its sole proprietorship structure (The Symmetry) has been in business since 2003 and has maintained a sound financial history with continuous operational track record. Premium of PKR 3.25/- per share is justified based on the following factors:

##### 4A (i.) FAVOURABLE INDUSTRY TRENDS

Digital technology continues to expand its influence. Pakistan has witnessed a wave of impactful technologies that have created disruption across board. The country remains on track to experience more digital influence as investors' community puts in trust behind the digital adoption in Pakistan. Pakistan's companies raised more than USD 350 million in<sup>44</sup>2021. Furthermore, as per Ministry of Information Technology and Telecommunication (MOITT), Pakistan's start up ecosystem attracted an investment of more than USD 355 million during 2022. Whereas, in March 2022, a single e-commerce startup raised USD 70 million in funding equating 20% of 2022 funding.

Furthermore, the profitability of the listed companies under Technology and Communication of the comparable companies in our sample size (refer to section 4A (ix)) increased by approximately 50% YoY on a trailing twelve month basis ending March 2023. Given the exemplary performance of the peer group over the years, the Company is also poised to benefit from this with attractive profitability, ROE, ROA and multiples. Further details given in 4A (ix).

##### 4A (ii.) SOUND CUSTOMER BASE

The Company has a sound customer base among which a few are Jazz, PSX, HBL, PG, MCB, Unilever, EFU Life, Martin Dow Group, and Digicel etc. These financially stable customers belong to a number of industries and provide revenue diversification to the Company.

The Company will leverage its deep-rooted relationships to introduce its Intellectual Properties in the market and grow this new business vertical which will aid the company in generating more revenues and profitability.

##### 4A (iii.) STABLE REVENUE GROWTH

Despite a tough economic and business environment in recent years, especially with respect to COVID lockdown, Symmetry Group Limited has shown tremendous growth. The Company has maintained an average YoY growth rate of 20% per annum from FY19-FY22 which is an affirmation of Company's readiness to handle challenges and turning threats into opportunities.

##### 4A (iv.) DIGITAL IS NOW

<sup>44</sup> Bloomberg

With increasing access to internet worldwide, use of digital mediums is on rise globally. Pakistan has more than 109 million broadband and 187 million cellular subscribers out of which 106 million are 3G/4G users.<sup>45</sup> These users are interacting with digital experiences day-in day-out, in one form or the other. Whether it is bill payments or buying groceries, entertainment or food delivery, salary disbursement or a taxi ride, consumers today do all these digitally.

Digitization is happening at a rate that is paced by end-user and customer demand however according to the Global Center for Business Transformation, 40% of companies are at risk of being displaced because they are not equipped for the digital future. This is where Symmetry Group Limited helps ensure its customers do not fall behind. Therefore, the Company through its new products offering will fill the gap in the market and increase its revenue and profitability on a sustainable basis through subscription-based model.

#### **4A (v.) MANAGEMENT OF THE COMPANY**

Management of the Company consists of professionals with diverse experience of working in Digital Transformation, Marketing, Banking & Finance industries. Members of the management team are well recognized and are considered experts in their respective fields. They have a strong network with the industry, having access to some of the most respected business leaders in the country.

The Board of Directors comprises of seven (7) directors reference to section 7 of the prospectus. The directors bring with them a wealth of skills and experience in Information Technology, Marketing, FINTECH, FMCG and Financial sectors. With these diversified proficiencies and a futuristic mindset, the board provides guidance and direction to the Company to employ latest digital technologies across various functions of the Company including R&D, design, development, sales and service. The board consists of notable names such as Mr. Zaheer Dodhia (Chairman) who is a US based tech entrepreneur and the Founder and CEO of Design Mantic, a company providing SaaS platforms that features on-the-go brand design tools for startup and entrepreneurs. Mr. Dodhia carries 23+ years of experience and have advised entrepreneurs grow their businesses. Similarly, the Company has Ms. Musharraf Hai (Independent Director) on its board who is the ex-CEO of Unilever Pakistan and later went on to establish L'Oreal Pakistan and build the foundations for a successful Beauty and personal care business in Pakistan. She was awarded Sitara e Imtiaz by the Government of Pakistan and Knight of National Order of Merit, Government of France. Moreover, other board members as mentioned in section 7 of the prospectus, brings with them a wide range of experience and knowledge which will help the Company to grow and evolve in the dynamic digital and tech era.

#### **4A (vi.) HIGH POTENTIAL OF GROWTH WITH EVOLVING INDUSTRY**

The annual cellular subscribers in Pakistan have increased from 140.46 million to 195.26 million up till FY22 growing at 5-year CAGR of 6.8%. Digitalization is undertaken on the back of mobile penetration. The higher number of users using mobile phones, the greater the number of potential markets. Similarly, higher usage and penetration of cellular subscribers would mean enhanced target market for digital ads and ad spent of the companies would increase in this space providing more revenue opportunities for the Company. Similarly, the rise in D-Commerce, which is the exchange of goods and services using digital channels such as internet, mobile networks, and commerce infrastructure, would pave the way for improved revenue growth within the e-commerce segment of the Company, i.e., Symmetry Trade (Ali Baba) with Pakistan being 37th largest e-commerce market.

Moreover, a shift in advertising to digital media also helps the Company as according to the latest advertising expenditure forecast compiled by Zenith, Digital advertising will account for over 60% of global ad spend in 2022 and further increase to approximately 65% in 2024. Increased adoption of e-commerce has accelerated the rise in digital ad spend, which grew by 20% year-on-year in 2022. **These facts support the revenue growth within the transformation and interactive segments as well.**

#### **4A (vii.) ATTRACTIVE VALUATION**

The issue price of PKR 4.25/- per share, based on annual earnings for Trailing Twelve Months (TTM) from March 2022 to March 2023, translates to a trailing price to earnings (P/E) multiple of 7.28 times as compared to industry weighted average of 11.82 times offering a discount of 38.39% from the industry. Similarly, this issue price translates to a trailing

## 5 RISK FACTORS

### 5.1. INTERNAL RISK FACTORS

#### 5.1.1. CYBERSECURITY RISK

This risk is associated with the probability of exposure or loss resulting from a cyber-attack or data breach organization. The Company has obtained cloud services for storage of clients' data. Cyber-attacks from outside the organization could lead to potential loss of customers and revenue, impacting the profitability and goodwill of the Company.

#### 5.1.2. RISK OF FAILURE TO DEVELOP IPs

Technology or Research & Development carries an element of risk because it involves trying out new, untested ideas. Symmetry Group Limited plans to expand business via offering digital business services through development of IPs. This is an area where the Company has been operating over the past 2 decades, whereby it develops various platforms / web applications for their clients. Now, post IPO the Company intends to develop its own platforms, whereby it will have own Intellectual property rights, utilizing future-tech such as Artificial Intelligence (AI). There is a risk that the Company may not be able to succeed in developing proper IPs/technology as envisaged in their plan. This may result in reputational loss affecting profitability. However, the Company has prior experience in developing IPs for its clients and will be able to carry out the tasks properly.

#### 5.1.3. CUSTOMER CONTINUITY RISK

SGL has majorly short-term agreements with clients whose billing includes an element of retainer fees; these contracts are renewable on annual and bi-annual basis. If these customers do not renew their contract, Company's revenue growth might be impacted adversely. However, over the recent three years only one (1) client has discontinued business due to a change in the clients internal marketing strategy. JS bank and Jazz accounted for nearly 38% of the net revenue during FY22. Churn by either of the client could impact the revenue of the Company. However, SGL's customer base is quite diversified and hence the risk of customer continuity is mitigated. Moreover, with the introduction of five new IPs as mentioned in section 4, the revenue base will be further diversified in the near future.

#### 5.1.4. CREDIT RISK / RISK OF BAD DEBTS

Credit risk is the risk which arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposure, limiting transactions with specific counter parties and continually assessing the credit worthiness of counter parties. The Company is mainly exposed to credit risk on accounts such as trade debts, tender deposits, short term prepayments, loans and advances, other receivables and bank balances. Trade debts of the Company as of 30<sup>th</sup> June 2022 amounted to PKR 239,406,699 and the Company has only incurred a minor write off of PKR 75,000 in 2021.

The ageing of trade debts is as follows:

\*The increase in the trade debts of past due 90 days in FY22 is due to change in payment terms of few clients which had increased their payment terms from 60 days to 120 days. Hence this should be treated as being in normal course of business.

### 5.1.5. LIQUIDITY RISK

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company applies prudent risk management policies by maintaining sufficient cash and bank balances and by keeping committed credit lines. During the year ended June 30<sup>th</sup> 2022, the Company's current ratio was 2.31 times.

#### 5.1.6. NEGATIVE OPERATING CASH FLOW

The Company reported Negative operating Cash Flows of PKR 3.8 million during FY22 due to higher income taxes paid which was a one-off treatment.

#### 5.1.7. CUSTOMER CONCENTRATION RISK

In FY2022, five (5) customers accounted for nearly 64 % of the net revenue of the Company. Hence, the Company is exposed to customer concentration risk. Any disruption in sales to these customers could have an adverse impact on sales. However, with the launch of new IPs on a subscription model and increase in exports earnings this risk will be mitigated.

#### 5.1.8. RISK OF NON-COMPLIANCE WITH REGULATION OF SECP AND PSX

In the event of non-compliance with any regulatory requirements of SECP or PSX, the Company may be placed on Defaulter Segment of PSX which may potentially hamper trading in the Company's shares leading up to potential suspension in trading of its shares or delisting.

#### 5.1.9. RISK OF COST & TIME OVERRUN WHEN CREATING IPs

There is a risk of cost escalation and time overrun for creating IPs as the costs and the timeline for creation of IPs are based on management estimate. However, the estimated costs of the Intellectual Properties have been taken after incorporation of a 10% reasonable contingency amount for cost over runs while the Company has successfully developed various IPs for its clients in past in a time efficient manner. Furthermore, the cost of development will be capitalized over the useful life of the IPs.

Moreover, revenues from the IPs will start flowing in after successful deployment of IPs. The operating cash flow position of the company for FY 2022 is negative and the Company may face cashflow issues if actual cost/capex to be incurred on development of IPs increases in comparison to the estimates.

#### 5.1.10 RISK OF LOSS OF KEY HUMAN RESOURCE

Symmetry Group Limited's business plan involves creation of sophisticated Intellectual Properties and other business verticals. These are largely dependent on availability of skilled human resource with specific expertise in their respective areas. There is a risk that these key personnel can leave the Company and be hard to replace. The same can result in delay in implementation of the project impacting profitability. However, till date the Company has been able to maintain an impressive human resource retention ratio.

### 5.2. EXTERNAL RISK FACTORS

#### 5.2.1. CAPITAL MARKET RISK

Post listing on PSX, the price of the Company's shares will be determined by market forces driven by local and global socio-economic events, capital and money market behavior, competitive scenarios and Company performance. The value of the shares will be subject to fluctuation based on the combined impact of these forces.

#### 5.2.2. REGULATORY RISK

Implementation of new taxes and rescinding of tax holiday from export of IT services could adversely impact Company's net margins and profitability. However, currently the tax structure for exports of IT services is as follows:

##### **Tax Framework for Export based IT serviced providers:**

Pakistan Software Export Board (PSEB) registered Businesses & Freelancers: Final Tax Regime (FTR) with tax rate of 0.25% of the export proceeds of the companies

Not registered with PSEB: FTR with Tax Rate of 1% of Export Proceeds

#### 5.2.3. ECONOMIC SLOWDOWN

Slow down and/or deterioration of macroeconomic conditions could trigger a reduction in disposable incomes, compelling consumers to switch to reduction in marketing, communication and digitalization needs.

Growth of any sector is affected by the economic conditions prevailing in the country. An economic slowdown may adversely affect the growth and performance of the IT sector as a whole. The risk of economic slowdown is also present for the export destinations hence reducing the ability to export in larger numbers. The prevalent economic meltdown is such where there is shortage of USD in the market and higher interest rates which has hampered the growth of the industry. However, since SGL is focusing on increasing their export revenues, as evident from 9MFY23 results where the export revenues increase from ~23% to ~37%, SGL's revenues shall improve given the export revenues.

Moreover, the prevalent deteriorating economic situation of the Country could lead to FMCG's and other clients of the Company cutting down their marketing budgets and expenditures, resulting in potentially lower local revenue for the Company. However, the Company has expanded its sales mix by exporting its services where exports were 23% of the net revenue (consolidated basis) in FY22 and is expected to increase further with the introduction of new IPs.

#### **5.2.4. INTEREST RATE RISK**

The Company has entered various financing agreements to finance its working capital requirements. Any increase in interest rates will increase the cost of borrowing for the Company and may adversely affect its profitability, as existing debts are based on floating rates. The finance cost of the company for FY22 was PKR 9.1 Mn and the total debt outstanding as of 30<sup>th</sup> June 2022 is PKR 40.8 Mn. However, since SGL's gearing ratio is extremely low, the impact of any increase in benchmark interest rates by the SBP will only be marginal.

#### **5.2.5. THREAT OF NEW ENTRANTS**

IT industry has high threat of new entrants due to low initial capital requirements, easy access to suppliers and distribution channels, the IT industry is also loosely regulated and new businesses are supported and encouraged by the government which in turn could create competition and potentially lower the margins of the Company with high competition. However, the Company is an established name in the industry with strong brand loyalty from its customers and is venturing into new areas that hold little to no footprint in Pakistan.

#### **5.2.6. TECHNOLOGY OBSOLESCENCE RISK**

Technological obsolescence risk refers to the risk of outdated existing technologies with continuous evolution and introduction of new technologies in the market. However, the Company plans to recruit new human resource with specialized skill set and train the existing human resource to keep the Company's product offerings in line with the new technologies.

#### **5.2.7. UNDER SUBSCRIPTION RISK**

This is the risk that the public offering may get undersubscribed due to lack of interest from investors. The book building process shall be considered as cancelled if:

- The Company does not receive bids for the number of shares allocated under the Book Building portion;
- The Company does not receive at least 40 bids.

The bid money submitted by investors shall be refunded subsequently.

**2. BASIS OF PREPARATION****2.1 Statement of compliance**

These special purpose consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act 2017.

Where the provisions of and directives issued under the Companies Act 2017 differ from IFRS Standards, the provisions of and directives issued under the Companies Act 2017 have been followed.

**2.2 Basis of measurement**

These special purpose consolidated financial statements have been prepared under the historical cost convention, unless otherwise stated.

**2.3 Functional and presentation currency**

These special purpose consolidated financial statements are presented in Pakistan Rupees which is Group's functional currency. All financial information presented in Pakistan Rupees has been rounded to the nearest rupee, unless otherwise stated.

**2.4 Use of estimates and judgments**

The preparation of financial statements in conformity with accounting and reporting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates underlying the assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Information about the judgments made by the management in the application of the accounting policies, that may have the most significant effect on the amount recognized in these financial

statements, assumptions and estimation uncertainties with significant risk of material adjustment to the carrying amount of asset and liabilities in the next year are described in the following notes:

- Property and equipment (note 3.2)
- Leases (note 3.3)
- Intangible assets (note 3.4)
- Goodwill (note 3.5)
- Impairment (note 3.6)
- Taxation (note 3.9)

## 2.5 New or amendments / interpretations to existing standards, interpretation and forthcoming requirements

The following new or amended standards and interpretations became effective during the year which are not considered to be relevant to the Company's financial statements:

- Interest Rate Benchmark Reform – Phase 2
- COVID-19-Related Rent Concessions (Amendment to IFRS 16)

## 2.6 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 October 2021:

- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual periods beginning on or after 1 January 2022 amends IAS 1 by mainly adding paragraphs which clarifies what comprises the cost of fulfilling a contract. Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.
- The following annual improvements to IFRS Standards 2018-2020 are effective for annual reporting periods beginning on or after 1 January 2022.
  - IFRS 9 – The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
  - IFRS 16 – The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.

- IAS 41 – The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for annual periods beginning on or after 1 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.
- Reference to the Conceptual Framework (Amendments to IFRS 3) - Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3. An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS Standards, issued in March 2018.
- Classification of liabilities as current or non-current (Amendments to IAS 1) amendments apply retrospectively for the annual periods beginning on or after 1 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) – the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:
  - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
  - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
  - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

- **Definition of Accounting Estimates (Amendments to IAS 8)** – The amendments introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 1 January 2023, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.
- **Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)** – The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.
- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)** – The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies set out below are consistently applied for all periods presented in these special purpose consolidated financial statements.

#### **3.1 Basis of consolidation and equity accounting**

##### **3.1.1 Business Combination**

Business combinations are accounted for using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Goodwill arising on acquisition date is measured as the excess of the purchase consideration, including the acquisition date fair value of the acquirer's previously held equity interest in the acquiree in case of step acquisition, over the fair value of the identifiable assets acquired and liabilities assumed including contingent liabilities less impairment losses, if any. Any goodwill that arises is not amortised and tested annually for impairment. Any gain on bargain purchase is recognised immediately in special purpose consolidated statement of profit or loss. Transaction cost are expensed as incurred, except if related to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in special purpose consolidated statement of profit and loss.

### 3.1.2 Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Parent Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the special purpose consolidated financial statements from the date that control commences until the date on which control ceases.

These special purpose consolidated financial statements have been prepared using uniform accounting policies for the like transactions and other events in similar circumstances and the accounting policies of subsidiaries have been changed when necessary to align them with the accounting policies adopted by the Parent Company. The assets and liabilities of subsidiary companies have been consolidated on a line-by-line basis. The carrying value of investments held by the Parent Company is eliminated against the subsidiary's shareholders' equity in these special purpose consolidated financial statements.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners.

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in special purpose consolidated statement of profit or loss. Any retained interest in the former subsidiary is measured at fair value where control is lost.

The financial year of the Parent Company and its subsidiaries are the same and also audited.

### 3.1.3 Non-controlling interests

Non-controlling interest is that portion of equity in a subsidiary that is not attributable, directly or indirectly, to the Parent Company. Non-controlling interests are measured at their proportionate share of the subsidiaries' identifiable net assets. They are presented as a separate item in the special purpose consolidated financial statements.

### 3.1.4 Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated on consolidation.

## 3.2 Property and equipment

An item of property and equipment is initially recognised at cost which is equal to the fair value of consideration paid at the time of acquisition or construction of the asset. These are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is charged to income at rates using straight line method. Depreciation on additions is charged from the month during which the asset is available for use. For disposals during the year, depreciation is charged up to the month preceding the month of disposal. The useful life and depreciation method are reviewed and adjusted, if appropriate, at the reporting date.

Maintenance and repairs are charged to income as and when incurred. Major renewals and improvements are capitalized and the assets so replaced, if any, are retired. Gains and losses on disposal of assets, if any, are included in current income.

### 3.3 Leases

#### *Right-of-use assets*

The Group recognizes right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

#### *Lease liabilities*

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

#### *Short-term leases*

The Group applies the short-term lease recognition exemption to its short-term leases where the lease term is of 12 months or less from the commencement date and do not contain a purchase option and leases for which the underlying asset is of low value. Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

### 3.4 Intangible assets

Intangible assets acquired by the Group are stated at cost less accumulated amortisation and impairment losses, if any. Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditure is expensed out as incurred.

Amortisation is charged to profit and loss account on reducing balance method at the rates specified in respective notes in these special purpose consolidated financial statements unless lives of assets are indefinite. All intangible assets with an indefinite useful life are systematically tested for impairment at each reporting date. Amortisation on additions to intangible assets is charged from the date on which an item is acquired or capitalized and upto the date preceding the disposal. Where the carrying amount of an asset exceeds its estimated recoverable amount it is written down immediately to its recoverable amount.

### 3.5 Goodwill

Goodwill that arises upon the acquisition of assets and assuming liabilities is included in intangible assets. The acquisition method of accounting is used to account for the acquisition of the assets and assuming liabilities. The cost of acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the acquisition date. The cost of acquisition includes fair value of assets and liabilities resulting from consideration agreement. Identifiable assets acquired and the liabilities assumed are measured initially at their fair values at the acquisition date. Transaction costs are expensed out as incurred except if they relate to the issue of debt or equity securities.

The excess of the consideration transferred over the fair value of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the Acquiree in the case of a bargain purchase, the difference is recognised directly in the profit and loss account.

Goodwill has indefinite useful life and is subsequently measured at cost less impairment in value, if any. Goodwill is tested for impairment on an annual basis and also when there is an indication of impairment. Impairment loss on goodwill is not reversed. On disposal of an entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

### 3.6 Share capital - ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

### 3.7 Financial instruments

#### 3.7.1 Initial measurement of financial asset

The Group classifies its financial assets in to following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortised cost.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

#### *Subsequent measurement*

<b>Debt investments at FVOCI</b>	These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss account and other comprehensive income. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the consolidated statement of profit or loss account and other comprehensive income.
<b>Equity investments at FVOCI</b>	These assets are subsequently measured at fair value. Dividends are recognised as income in the consolidated statement of profit or loss account and other comprehensive income unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the consolidated statement of profit or loss account and other comprehensive income.
<b>Financial assets at FVTPL</b>	These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in consolidated statement of profit or loss account and other comprehensive income.
<b>Financial assets measured at amortised cost</b>	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognised in the consolidated statement of profit or loss account and other comprehensive income.

#### 3.7.2 Non-derivative financial assets

All non-derivative financial assets are initially recognised on trade date i.e. date on which the Group becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets and includes trade debts, advances, other receivables and cash and cash equivalent.

The Group derecognises the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retain substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

### 3.7.3 Cash and cash equivalents

For the purpose of presentation in consolidated statement of cash flows, cash and cash equivalents incl. cash in hand, balances with banks and short term borrowings availed by the Group, which are repayable on demand and form an integral part of the Group's cash management.

### 3.7.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Group has currently legally enforceable right to set-off the recognised amounts and the Group intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Group or the counter parties.

## 3.8 Impairment

### 3.8.1 Financial assets

The Group recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the Gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The adoption of the expected loss approach has not resulted in any material change in impairment provision for any financial asset.

### 3.8.2 Non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets and inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the consolidated statement of profit or loss account and other comprehensive income.

## 3.9 Taxation

### Current

Provision for current taxation is based on taxable income at current rates of taxation after taking into account tax rebates and credits, if any.

### Deferred

Deferred tax is provided using balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

**3.10 Provisions**

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

**3.11 Foreign currency transactions**

Transactions in foreign currencies are accounted for in rupees at the rate of exchange prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies as at the reporting date are expressed in rupees at rates of exchange prevailing on that date except where forward exchange cover has been obtained for payment of liabilities, in which case the contracted rates are applied. Exchange gains and losses are included in income currently.

**3.12 Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the Group operates. The financial statements are presented in Pak Rupees, which is the Group's functional and presentation currency and have been rounded off to the nearest rupee.

**3.13 Revenue recognition**

Revenue from contracts with customers is recognised when control of the services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods and services.

- Revenue from media buying services is recognised at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.
- Revenue from providing Social media management services is recognised on a straight line basis over the life of the respective contracts.
- Revenue from content creation services is recognised at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.
- Revenue from agency commissions and discounts is recognised at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.

**3.14 Expenses**

All expenses are recognised in the consolidated statement of profit and loss on an accrual basis.

**3.15 Dividends and appropriations**

Dividend distributions and appropriations are recorded in the period in which the distributions and appropriations are approved.

## 5.2 Lease liabilities

Rental contracts are made for a fixed period subject to renewal upon mutual consent of the Group and lessor. Wherever practicable, the Group seeks to include extension option to provide operational flexibility. Lease term is negotiated on an individual basis and contain a wide range of different terms and conditions. Management exercises significant judgement in determining whether these extensions and termination options are reasonably certain to be exercised. The future lease payments have been discounted using interest rates ranging from 6.32% to 11.05% (June 30, 2021: 6.32% to 9.37%).

## Symmetry Group Limited

### Notes to the Unconsolidated Special Purpose Financial Statements

For the half year ended December 31, 2022

#### 1. STATUS AND NATURE OF BUSINESS

Symmetry Group Limited (The Company) was incorporated in Pakistan as a private limited company on 3 February 2012 under the repealed Companies Ordinance, 1984. In 2018, the Company was converted to a public company with effect from 31 May 2017. The principal activities of the Company is digital media, internet marketing and display advertising, technology & mobility solutions, website and apps development and other related services.

The registered office of the Company is situated at 3rd and 4th Floor, Plot 45-C, Shahbaz Lane 4, Phase VI, D.H.A. Karachi.

These financial statements are the Decarate financial statements of the Company in which investment in subsidiaries is accounted for in accordance with the accounting policy as stated note 4.4. Consolidated financial statements are prepared Decarately.

Detail of Company's investment in subsidiary companies is given in note 8 to these special purpose financial statements.

These special purpose financial statements are prepared for onward submission to Pakistan Stock Exchange together with the application for listing of the Company.

#### 2. BASIS OF PREPARATION

##### 2.1 Statement of compliance

These special purpose financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act 2017.

Where the provisions of and directives issued under the Companies Act 2017 differ from IFRS Standards, the provisions of and directives issued under the Companies Act 2017 have been followed.

##### 2.2 Basis of measurement

These special purpose financial statements have been prepared under the historical cost convention, unless otherwise stated.

##### 2.3 Functional and presentation currency

These special purpose financial statements are presented in Pakistan rupees which is Company's functional currency. All financial information presented in Pakistan rupees has been rounded to the nearest rupee, unless otherwise stated.

## 2.4 Use of estimates and judgments

The preparation of financial statements in conformity with accounting and reporting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates underlying the assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Information about the judgments made by the management in the application of the accounting policies, that have the most significant effect on the amount recognized in these special purpose financial statements, assumptions and estimation uncertainties with significant risk of material adjustment to the carrying amount of asset and liabilities in the next year are described in the following notes:

- Lease (note 4.2)
- Property and equipment (note 4.1)
- Intangible assets (note 4.3)
- Financial assets (note 4.5)
- Taxation (note 4.8)
- Provisions (note 4.9)
- Government grants (note 4.1)

## 3 CHANGES IN ACCOUNTING STANDARDS, INTERPRETATIONS AND PRONOUNCEMENTS

### Changes in accounting policy resulting from adoption of new standard during the period

The following new or amended standards and interpretations became effective during the year which are not considered to be relevant to the Company's financial statements:

- Interest Rate Benchmark Reform – Phase 2
- COVID-19-Related Rent Concessions (Amendment to IFRS 16)

### Standards, interpretations and amendments to published approved accounting standards that are not yet effective:

The following International Financial Reporting Standards (IFRS) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 October 2021:

- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual periods beginning on or after 1 January 2022 amends IAS 37 by mainly adding paragraphs which clarifies what comprises the cost of fulfilling a contract. Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

- The following annual improvements to IFRS Standards 2018-2020 are effective for annual reporting periods beginning on or after 1 January 2022.
  - IFRS 9 - The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
  - IFRS 16 - The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
  - IAS 41 - The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for annual periods beginning on or after 1 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.
- Reference to the Conceptual Framework (Amendments to IFRS 3) - Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3. An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS, issued in March 2018. These amendments are not likely to affect the financial statements of the Company.
- Classification of liabilities as current or non-current (Amendments to IAS 1) amendments apply retrospectively for the annual periods beginning on or after 1 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8. These amendments would not have a significant impact on the financial statements of the Company.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) - the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:

- requiring companies to disclose their material accounting policies rather than their significant accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

- **Definition of Accounting Estimates (Amendments to IAS 8)** - The amendments introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.

The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 1 January 2023 and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.

- **Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)** - The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

- **Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)** - The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review. These amendments would not have a significant impact on the financial statements of the Company.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies set out below are consistently applied for all periods presented in these financial statements.

##### 4.1 Property and equipment

An item of property and equipment is initially recognized at cost which is equal to the fair value of consideration paid at the time of acquisition or construction of the asset. These are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is charged to income at rates using straight line method. Depreciation on additions is charged from the month during which the asset is available for use. For disposals during the year, depreciation is charged up to the month preceding the month of disposal. The useful life and depreciation method are reviewed and adjusted, if appropriate, at the reporting date.

Maintenance and repairs are charged to statement of profit or loss account as and when incurred. Major renewals and improvements are capitalized and the assets so replaced, if any, are retired. Gains and losses on disposal of assets, if any, are included in current income.

##### 4.2 Leases

###### Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Right-of-use assets comprise of head office sales office and warehouse building which is depreciated over period of lease on straight line basis ranging from one year to five years. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

###### Lease liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

#### Short-term leases

The Company applies the short-term lease recognition exemption to its short-term leases where the lease term is of 12 months or less from the commencement date and do not contain a purchase option and leases for which the underlying asset is of low value. Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

### 4.3 Intangible assets

Intangible assets acquired by the Company are stated at cost less accumulated amortization and impairment losses, if any. Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditure is expensed out as incurred.

Amortization is charged to statement of profit or loss account on reducing balances method at the rates specified in respective notes in these special purpose financial statements unless lives of assets are indefinite. All intangible assets with an indefinite useful life are systematically tested for impairment at each reporting date. Amortization on additions to intangible assets is charged from the date on which an item is acquired or capitalized and upto the date preceding the disposal. Where the carrying amount of an asset exceeds its estimated recoverable amount it is written down immediately to its recoverable amount.

### 4.4 Long term investment - subsidiary companies

Subsidiaries are the entities controlled by the Company. The Company controls an entity when it is exposed to or has right to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The investment in subsidiary is initially recognized and carried at cost. The carrying amount of the investment is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists the investment's recoverable amount is estimated. An impairment loss is recognized if the carrying amount exceeds its recoverable amount. A recoverable amount is higher of its fair value less cost to sell and value in use. Impairment losses are recognized in the statement of profit or loss account. An impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount but limited to the extent of initial cost of investment. A reversal of impairment loss is recognized in the statement of profit or loss account. On loss of control of subsidiary company, any gain or loss is recognized in the statement of profit or loss account, being the difference between purchase price and disposal proceeds.

## 4.5 Financial instruments

### 4.5.1 Financial assets

#### 4.5.1.1 Classification

The Company classifies financial assets on the basis of the business model within which they are held and their contractual cash flow characteristics. The financial assets of the Company are categorized as follows:

##### a) Financial assets at amortised cost

- these are the financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### b) Financial assets measured at fair value through other comprehensive income (FVOCI)

- these are the financial assets held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### c) Financial assets measured at fair value through profit or loss (FVTPL)

- these are the financial assets measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income (FVOCI).

#### 4.5.1.2 Initial recognition and measurement

All financial assets are recognised at the time the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially recognised at fair value plus transaction costs except for financial assets carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs associated with these financial assets are taken directly to the statement of profit or loss.

#### 4.5.1.3 Subsequent measurement

Subsequent to initial recognition, financial assets are valued as follows:

##### a) Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

##### b) Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the statement of profit or loss.

**c) Financial assets at FVTPL**

These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in profit or loss.

**d) Financial assets measured at amortized cost**

These assets are subsequently measured at amortised cost using the effective interest rate method. The amortised cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss.

**4.5.1.4 Impairment**

The Company applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade and other receivables. Impairment losses related to trade and other receivables, are presented Declarably in the statement of profit or loss. Trade and other receivables are written off when there is no reasonable expectation of recovery. Management has used actual credit loss experience over past years to base the calculation of ECL.

**4.5.1.5 Offsetting of financial assets and liabilities**

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Company or the counterparties.

**4.5.2 Financial liabilities**

Financial liabilities are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial liabilities include mark-up bearing borrowings and trade and other payables. The Company derecognises the financial liabilities when contractual obligations are discharged or canceled or expire. Financial liabilities other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortised cost using effective interest rate method.

**4.5.3 Derecognition**

Financial assets are derecognised at the time when the Company's contractual right to the cash flows from the asset expires or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control the transferred asset. Financial liabilities are derecognised at the time when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled, or expires. Any gain or loss on derecognition of financial assets and financial liabilities is taken to the statement of profit or loss.

#### 4.6 Cash and cash equivalents

For the purpose of presentation in statement of cash flow, cash and cash equivalents includes cash in hand, balances with banks and short term borrowings availed by the Company, which are repayable on demand and form an integral part of the Company's cash management.

#### 4.7 Impairment

##### 4.7.1 Financial assets

The Company recognizes loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortized cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the Gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The adoption of the expected loss approach has not resulted in any material change in impairment provision for any financial asset.

#### 4.7.2 Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets and inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the statement of profit or loss account and other comprehensive income.

#### 4.8 Taxation

##### Current

Provision for current taxation is based on taxable income at current rates of taxation after taking into account tax rebates and credits, if any.

##### Deferred

Deferred tax is provided using balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

#### 4.9 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

#### 4.10 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of "government" refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognizes government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants.

Government grants are recognized at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

#### 4.11 Foreign currency transactions

Transactions in foreign currencies are accounted for in rupees at the rate of exchange prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies as at the reporting date are expressed in rupees at rates of exchange prevailing on that date except where forward exchange cover has been obtained for payment of liabilities, in which case the contracted rates are applied. Exchange gains and losses are included in income currently.

#### 4.12 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. These special purpose financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency and have been rounded off to the nearest rupee.

#### 4.13 Revenue recognition

Revenue from contracts with customers is recognized when control of the services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services.

- Revenue from media buying services is recognized at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.
- Revenue from providing social media management services is recognized on a straight line basis over the life of the respective contracts.
- Revenue from content creation services is recognized at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.
- Revenue from agency commissions and discounts is recognized at a point in time when the performance criteria have been met in accordance with the contract and acknowledged by the customer.

#### 4.14 Expenses

All expenses are recognized in the statement of profit or loss account on an accrual basis.

#### 4.15 Dividends and appropriations

Dividend distributions and appropriations are recorded in the period in which the distributions and appropriations are approved.

- 3 The decline in net revenue during FY22 is due to higher cost of services of content creation owing to higher charges paid to third party vendors for content creation services and due to decline in revenue from designing and development owing to fewer number of contracts for this particular segment during the year.
- 4 The decline in EBITDA during FY22 is due to an increase in admin and general expenses
- 5 Depreciation and Amortization relates to Furniture, office equipment, vehicles, computer and ancillary equipment.
- 6 Decline in operating profit during FY22 is due to lower net revenue and higher administrative costs
- 7 Increase in finance costs during FY22 is due to elevated interest rates
- 8 The decline in Non-current assets is due to lower Right Of Use assets due to an increase in depreciation
- 9 The increase in trade debts during FY22 is commensurate with an increase in Gross Sales
- 10 Negative operating cashflows during FY22 is due to higher tax payments
- 11 Investing cashflows are positive during FY22 due to investment in term deposit receipts
- 12 Capex relates to maintenance expenditure
- 13 Negative net profit growth in FY22 is due to lower net revenue and increased cost of sales
- 14 Higher EBITDA margins during FY21 is due to higher net revenue and reduction in Admin and general expenses
- 15 Higher operating margins during FY21 is due to higher net revenue and reduction in admin and general expenses
- 16 Lower PAT in FY22 is due to lower net revenue and higher costs of services
- 17 Lower ROE during FY22 is due to lower profitability and higher paid-up capital on account of capitalization
- 18 Lower ROA during FY22 is due to higher total assets and lower profits during the year
- 19 The increase in receivable turnover during FY22 is due to higher trade debts during the year

\*\*\* Net revenue is reported in line with IFRS 15. The Operating and Net margins of the Company are calculated based on Net Revenue as per the confirmation of the auditors and through the treatment provided by IFRS 15, where the standard clarifies 2 points, as given under:

Test 1:

When another party is involved in providing goods or services to a customer, the entity shall determine whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e., the entity is a principal) or to arrange for those goods or services to be provided by the other party (i.e., the entity is an agent). An entity determines whether it is a principal or an agent for each specified good or service promised to the customer.

Test 2:

An entity is an agent if the entity's performance obligation is to arrange for the provision of the specified good or service by another party. An entity that is an agent does not control the specified good or service provided by another party before that good or service is transferred to the customer. When (or as) an entity that is an agent satisfies a performance obligation, the entity recognizes revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party. An entity's fee or commission might be the net amount of consideration that the entity retains after paying the other party the consideration received in exchange for the goods or services to be provided by that party.

IFRS 15. B37 further stipulates the 3 indicators that an entity controls the specified good or service before it is transferred to the customer (and is therefore a principal) include, but are not limited to, the following:

- a) the entity is primarily responsible for fulfilling the promise to provide the specified good or service.
- b) the entity has inventory risk before the specified good or service has been transferred to a customer or after transfer of control to the customer (for example, if the customer has a right of return).
- c) the entity has discretion in establishing the price for the specified good or service

## 6.9. COMMENTARY ON UNCONSOLIDATED FINANCIAL POSITION AND SELECTED RATIOS

### i. Revenue Growth:

In FY22, on an unconsolidated basis, Symmetry Group Limited recorded negative revenue growth of 25.58% YoY due to higher cost of services. The cost of services as a % of gross revenue grew from 40% in FY21 to 61% in FY22 which led to lower net revenue for the Company during FY22. In term of gross revenue, the Company witnessed YoY growth of 13% during FY22.

The higher cost of services was mainly due to higher costs for content creation due to expensive third-party resource for content creation.

### ii. Profitability Ratios:

EBITDA margins remained stable and hovered around 54.84% from FY2020-FY2022. Net margins witnessed slight attrition of 2.88 percentage points and settled at 37.47% during FY22 compared to 40.35% during FY21. The decrease in margins is primarily attributable to lower revenue during FY22.

### iii. Liquidity and Turnover Ratios:

Fixed Asset Turnover witnessed a slight decline at 8.25x during FY22 from 9.48x in FY21 due to lower revenue during FY22. Receivables turnover days increased to 135.26 in line with the higher gross sales.

### iv. Leverage Ratios

On unconsolidated basis Symmetry Group Limited's Debt to Equity ratio have declined steadily to 0.24x in FY22 from 0.30 in FY21 as the non-current liabilities reduced significantly. Similarly, Debt to Assets of the Company reduced from 0.20x in FY21 to 0.18x in FY22.

6 The decrease in non-current assets is due to amortization of software and depreciation of property and equipment

7 The increase in trade debt is due to an increase in sales. During the last three years a minor PKR 75k has been considered bad debt.

8 Negative operating cash flows during FY22 is due to higher income taxes paid

9 Investing cashflows are positive during FY22 due to investment in short term deposits

10 Capex relates to maintenance expenditure

11 Higher operating margins are due to higher revenue

12 Decrease in receivable turnover during FY21 is due to reduction in trade debts

## 6.11. COMMENTARY ON CONSOLIDATED FINANCIAL POSITION AND SELECTED RATIOS

### i. Revenue Growth:

In FY22, Company recorded revenue growth of 19.16% YoY on the basis of price increase led by growth in demand, addition of new products/segments, and addition of new customers as business and consumers adopted to digitization during the last two years due to the pandemic. The company's revenue has grown at a 3-year CAGR of 14%.

### ii. Profitability Ratios:

Operating margins of the company witnessed a slight decline from 32.05% in FY21 to 28.61% in FY22 owing to relatively higher administrative expenses during the year. However, Net Margins of the company remained similar in FY22 at 20.87% compared to 20.05% during FY21 due to tighter cost controls and higher other income which includes Foreign exchange income and interest income.

*Average trade debts x 365/ Gross Sales*

*Average trade payables x 365/ Cost of services*

*Total debt/ Total Equity*

*Total debt/ Total Assets*

## 8 LEGAL PROCEEDINGS AND OVERDUE LOANS

### 8.1. LEGAL PROCEEDINGS

As at June 30, 2022 there are several pending cases filed by / against the Company. All these cases are still pending adjudication for decision. The management of the Company based on the written advice of legal counsel expects the outcome of these cases to be in favor of the Company. The auditors of the Company have not made any provision for liability that may arise as a result of these cases in the financial statements for the year ended June 30, 2022.

#### Summary of outstanding legal cases other than normal course of business

Case	Current Status	Case Brief	Management Stance	Impact Analysis
CP No. D-5079 of 2019 (Symmetry Group Limited , Symmetry Digital Pvt Limited, Iris Digital Pvt Limited)	Stay granted in favor of the Company	As per section 152 of the Income Tax Ordinance 2001, Every person making a payment for advertisement services to a non-resident media person relaying from outside Pakistan shall deduct tax from the gross amount paid. However, there are instances when the tax is avoidable due to availability of Double Taxation Treaties between various countries and the person intends to make a payment to a non-resident person without deduction of tax under this section, the person shall, before making the payment, furnish to the Commissioner a notice in writing & the Commissioner on receipt of notice shall pass an order accepting the contention or making the order. We have received such exemption earlier as well. However, our application for FY 2019 was not accepted by the commissioner nor it was rejected, therefore forcing us to file a case against FBR.	Management is of the view that there is no need of income tax deduction at source while paying to these 3 <sup>rd</sup> parties as they are exempt from such tax under Avoidance of Double Taxation treaties between their respective countries & Pakistan. The Company had won a similar case on same grounds, order in favor of the Company was passed by SHC on 3-May-2019.	Nil
IT/I-127/Appeal//2021 (Iris Digital Pvt Limited)	Case is pending for next hearing	The appeal was filed by company to the Inland Commissioner Inland Revenue for grant of stay against the undue payment of tax amounting to PKR 5,191,266/- The tax amount was calculated by the FBR officer against section 152, withholding of tax at source while paying to non-residents which is already explained above.	Management is of the view that there is no need of income tax deduction at source while paying to these 3 <sup>rd</sup> parties as they are exempt from such tax under Avoidance of Double Taxation treaties between their respective countries & Pakistan.  The management believes that the case will turn out in their favor and hence no provisioning has been made.	Nil
122(9) Notice to amend	Case is pending	Company has claimed a refund of PKR 1,544,103 for Tax Year 2020		Nil

Case	Current Status	Case Brief	Management Stance	Impact Analysis
assessment (Symmetry Digital Pvt Limited)	for next hearing	against the income tax deducted at source in excess of the tax liability for the year. However, the officer has rejected the said claim and has passed the erroneous order. Company has filed an appeal against the order	Order is erroneous. Management is of the view that the refund claim is valid and should be adjusted against the tax liability.  The management believes that the case will turn out in their favor and hence no provisioning has been made.	
C.P Number 3230,3231,3232 & 3233 of 2021 for Symmetry Group Limited, Iris Digital and Symmetry Digital (Private) Limited		Petition filed by the company against the notice issued by FBR u/s 177(1) of Income Tax Ordinance 2001 to get the accounts audited by FBR as per the clause 94 of Part 4 of Second Schedule of the Income Tax Ordinance 2001	Management is of the view that their stance is valid since the said clause against which the notice is issued was omitted by Finance Act 2019.	NIL

Apart from the three legal proceedings disclosed above, there are no outstanding legal or taxation proceedings other than the normal course of business involving the Issuer, the Group, its sponsors, substantial shareholders, directors, subsidiaries, and associated companies over which the Issuer has control. The legal proceedings outstanding other than the normal course of business are not anticipated to have any material impact on the Company.

## 12 APPLICATION AND ALLOTMENT INSTRUCTIONS FOR RETAIL PORTION

### 12.1. BOOK BUILDING PROCEDURE

#### 12.1.1. BRIEF STRUCTURE

##### The Present Issue

The Issue comprises of 101,240,082 Ordinary shares of face value of PKR 1.00/- each, which constitutes 35.49% of the total post-IPO paid up capital of the Company.

Initially, 75% of the issue size or 75,930,061 Ordinary Shares will be allotted to Successful Bidders and 25% of the Issue or 25,310,021 Ordinary Shares will be offered to Retail Investors at the Strike Price. Any unsubscribed retail portion will be allocated to Successful Bidders on a pro-rata basis. The entire issue will be offered through Book Building at a Floor Price of PKR 4.25/- per share. The Floor Price of PKR 4.25/- has a maximum Price Band of 40% above which no bid shall be accepted. At maximum Price Band, the highest strike price that can be bid for shall be PKR 5.95/- per share.

The bidders shall give an undertaking along with the application that they would subscribe to the unsubscribed shares, if any, by the retail investors and their remaining bid money would remain deposited/ blocked till allotment of unsubscribed shares, if any, of the retail portion to them on pro-rata basis. In case the retail portion is fully subscribed, the bid money shall be unblocked within one (1) working day or refunded within three (3) working days of the closing of the public subscription.

Within 3 working days of the closing of the Bidding Period, a Supplement to the Prospectus will be published in at least all those newspapers in which the Prospectus is published. The Supplement will contain information related to the Strike Price, the Offer Price, dates of the Public Subscription, and category wise break-up of the Successful Bidders. Format of the Supplement is given on page 2 of this Prospectus

#### 12.1.2. TYPES OF BIDS AND PROCEDURE FOR MAKING A BID

Book Building is a process whereby investors bid for a specific number of shares at various prices. The Issuer sets a Floor Price, which is the minimum / lowest price a Bidder can bid at. An order book of bids is maintained by the Book Runner, which is then used to determine the Strike Price through the "Dutch Auction Method".

Under the Dutch Auction Method, the Strike Price is determined by lowering the Bid Price to the extent that the total number of shares issued through the Book Building process are subscribed.

A bid by a Bidder can be a "Limit Bid", or a "Step Bid", each of which are explained below:

- **Limit Bid:** Limit bid is at the Limit Price, which is the maximum price a Bidder is willing to pay for a specified number of shares.

In such a case, a Bidder explicitly states a price at which he / she / it is willing to subscribe to a specific number of shares. For instance, a Bidder may bid for 1 million shares at PKR 14.00 per share, based on which the total Application Money would amount to PKR 14 million. In this case the Bid Amount will also be PKR 14 million. Since the Bidder has placed a Limit Bid of PKR 14.00 per share, this indicates that he / she / it is willing to subscribe the shares at a price up to PKR 14.00 per share.

- **Step Bid:** A series of Limit Bids at increasing prices. The amount of any individual step shall not be less than PKR 1,000,000.

Under this bidding strategy, Bidders place a number of Limit Bids at different increasing price levels. A Bidder may, for instance, make a bid for 0.7 million shares at PKR 14.00 per share, 0.6 million shares at PKR 14.25 per share and 0.5 million shares at PKR 14.50 per share. Therefore, in essence the Bidder has placed one Step Bid comprising of three Limit Bids at increasing prices. The Bid amount will be PKR 25.6 million. In case of individual Bidder, the Margin Money will be 100% i.e., PKR 25.6 million whereas in case of Institutional Bidders the Margin Money shall be 25% of the Bid amount i.e., PKR 6.40 million.

##### RESTRICTIONS:

- (i) **AN ELIGIBLE INVESTOR SHALL NOT:**
  - (a) **MAKE BID BELOW THE FLOOR PRICE AND ABOVE THE UPPER LIMIT OF THE PRICE BAND;**

- (b) MAKE BID FOR MORE THAN 10% OF THE SHARES ALLOCATED UNDER THE BOOK BUILDING PORTION UNDER THE BOOK BUILDING PORTION

- (d) PLACE CONSOLIDATED BID
- (e) MAKE MORE THAN ONE BID SEVERALLY OR JOINTLY
- (f) MAKE DOWNWARD REVISION BOTH IN TERMS OF BID PRICE AND BID VOLUME; PROVIDED THAT INCASE OF UPWARD REVISION OF THE BID PRICE, THE NUMBER OF SHARES BID FOR I.E. BID VOLUME MAY BE ADJUSTED ENSURING THAT THE BID AMOUNT OR BID MONEY REMAINS THE SAME; AND
- (g) WITHDRAW BID
- (ii) RELATED EMPLOYEES OF THE ISSUER, LEAD MANAGER TO THE ISSUE AND THE BOOK RUNNER SHALL NOT PARTICIPATE IN THE BIDDING PROCESS.
- (iii) NO PERSON SHALL TAKE PART IN THE BOOK BUILDING PROCESS, DIRECTLY OR INDIRECTLY SEVERALLY OR JOINTLY IN ANY MANNER OR ENGAGE IN ANY ACT OR PRACTICE WHICH CREATE A FALSE AND MISLEADING APPEARANCE OF ACTIVE BIDDING FOR RAISING OR DEPRESSING STRIKE PRICE IN THE BOOK BUILDING PROCESS.
- (iv) AS PER REGULATION 7(8) OF THE PO REGULATION, THE ASSOCIATES OF THE ISSUER AS DISCLOSED IN THE PROSPECTUS SHALL NOT IN AGGREGATE MAKE BIDS IN EXCESS OF TEN (10) PER CENT OF THE SHARES OFFERED THROUGH BOOK BUILDING.
- (v) AS PER REGULATION 7(9) OF THE PO REGULATIONS, THE ASSOCIATES OF THE CONSULTANT TO THE ISSUE TO THE ISSUE AND BOOK RUNNER SHALL NOT IN AGGREGATE MAKE BIDS IN EXCESS OF TEN (10) PERCENT OF THE SHARES OFFERED THROUGH BOOK BUILDING.

LIST OF ASSOCIATED COMPANIES AND UNDERTAKINGS OF THE ISSUER, NAMES OF RELATED EMPLOYEES OF THE ISSUER, CONSULTANT TO THE ISSUE AND BOOK RUNNERS ARE PROVIDED IN SECTION 3A (vi)

Once the Bidding Period has lapsed and the book has been built, the, Strike Price shall be determined on the basis of Dutch Auction Method.

Successful Bidders shall be intimated, within one (1) working day of the closing of the Bidding Period, about the Strike Price and the number of shares provisionally allotted to each of them. The bid money of bidders who have undertaken to subscribe the unsubscribed retail portion shall remain deposited or blocked till allotment of unsubscribed retail portion, if any, to them on pro-rata basis. Upon intimation by the Book Runner of the final allocation, successful institutional bidders shall deposit their balance margin money within (3) days of such intimation. **Where a successful Bidder defaults in payment of shares allotted to him / her / it, the Margin Money deposited by such Bidder shall be forfeited to the Book Runner.**

**As per regulation 9(16) of the PO Regulations, the successful bidders shall be issued shares at the time of issuance of shares to the retail investors. Shares to successful bidders shall be issued only in the form of book-entry through credit in their respective CDS accounts (Investors Account or Sub-Account). All the bidders shall, therefore, provide number of their CDS accounts in the bid application.**

The Bidders must provide the bank account details in their bidding form, so that cash dividend can be credited into their respective International Bank Account Number (IBAN).

### 12.1.3. MECHANISM FOR DETERMINATION OF STRIKE PRICE

1. At the close of the bidding period, the Strike Price shall be determined on the basis of Dutch Auction Method by the Designated Institution. Under this methodology, the Strike Price is determined by lowering the price to the extent that the total shares offered under the Book Building Portion are subscribed.

- The Order Book shall display the bid prices in a tabular form in descending order along with the number of shares bid for and the cumulative number of shares at each price level.
- As per the regulation 9(12) of the PO Regulation, in case all the bids made above the Strike Price are accommodated and shares are still available for allotment, such available shares will be allotted on proportionate basis against the bids made at the Strike Price.

The mechanism for determination of the Strike Price can be understood by the following illustration:

- Number of shares being Issued through the Book Building: 101,240,082 Ordinary Shares
- Floor Price: PKR 4.25/-per Ordinary Share with maximum price band of 40% i.e., PKR 5.95 per share

Strike Price determined through Dutch Auction Method

Bid has been revised upwards and placed at PKR 5.07

Total shares bid for at and above the Floor Price

On the basis of the figures provided in the above illustration, according to the Dutch Auction Method, the Strike Price would be set at PKR 5.07 per share to sell the required quantity of 101,240,082 ordinary shares.

At PKR 5.95 per share, investors are willing to buy 10,124,008 shares. Since 91,116,074 shares are still available, the price will be set lower.

At PKR 5.89 per share, investors are willing to buy 9,111,607 shares. Since 82,004,467 shares are still available, the price will be set lower.

At PKR 5.83 per share, investors are willing to buy 8,200,446 shares. Since 73,804,021 shares are still available, the price will be set lower.

At PKR 5.77 per share, investors are willing to buy 7,380,401 shares. Since 66,423,620 shares are still available, the price will be set lower.

At PKR 5.72 per share, investors are willing to buy 7,380,401 shares. Since 59,043,219 shares are still available, the price will be set lower.

At PKR 5.66 per share, investors are willing to buy 7,011,381 shares. Since 52,031,838 shares are still available, the price will be set lower.

At PKR 5.60 per share, investors are willing to buy 6,660,812 shares. Since 45,371,026 shares are still available, the price will be set lower.

At PKR 5.55 per share, investors are willing to buy 6,327,771 shares. Since 39,043,255 shares are still available, the price will be set lower.

At PKR 5.49 per share, investors are willing to buy 6,011,382 shares. Since 33,031,873 shares are still available, the price will be set lower.

At PKR 5.44 per share, investors are willing to buy 5,710,813 shares. Since 27,321,060 shares are still available, the price will be set lower.

At PKR 5.38 per share, investors are willing to buy 5,425,272 shares. Since 21,895,788 shares are still available, the price will be set lower.

At PKR 5.33 per share, investors are willing to buy 5,154,008 shares. Since 16,741,780 shares are still available, the price will be set lower.

At PKR 5.27 per share, investors are willing to buy 4,896,308 shares. Since 11,845,472 shares are still available, the price will be set lower.

At PKR 5.22 per share, investors are willing to buy 4,651,493 shares. Since 7,193,979 shares are still available, the price will be set lower.

At PKR 5.17 per share, investors are willing to buy 4,418,918 shares. Since 7,426,554 shares are still available, the price will be set lower.

At PKR 5.12 per share, investors are willing to buy 4,197,972 shares. Since 3,228,582 shares are still available, the price will be set lower.

At PKR 5.07 per share, investors are willing to buy 3,988,073 shares. Since after bidding for 3,988,073 at 5.07, no shares will be available, the strike price will be set at PKR 5.07 per share for the entire lot of 101,240,082 shares.

The bidders who have placed bids at prices above the Strike Price (which in this illustration is PKR 5.07 per share), will become entitled for allotment of shares at the Strike Price and the differential would be refunded.

In case all the bids made above the Strike Price are accommodated and shares are still available for allotment, such available shares shall be allotted against the bids made at the Strike Price on proportionate basis as per regulation 9(12) of the PO Regulations.

The Bidders who have made bids below the Strike Price shall not qualify for allotment of shares and the Book Runner shall intimate the respective banks for unblocking their Bid Money within one (1) working day of the close of the bidding period as per regulation 9(13) of the PO Regulation and the refunds, where required to such bidders shall be made within three (3) working days from the close of the bidding period

Since this Issue is being made through 100% book building, as per the regulation 7(4) of the PO Regulation, the Bidder shall be allowed to place bids for hundred (100%) percent of the issue size and the strike price shall be the price at which hundred (100%) percent of the issue size is subscribed. However, the successful bidders would be allotted and issued only seventy-five (75%) percent of the issue size and the remaining twenty-five (25%) percent would be offered to the retail investor. The bidders shall give an undertaking along with the application that they would subscribe to the unsubscribed shares, if any, out of the retail portion of the Issue and their remaining bid money would remain deposited/ blocked till allotment of such unsubscribed shares to them on pro-rata basis.

The bid money of bidders shall remain deposited or blocked till allotment of unsubscribed shares, if any, to them on pro rata basis as per regulation 9(15) of PO Regulation.

In case retail portion of the Issue is fully subscribed, the bid money shall be unblocked within one (1) working day or refunded within three (3) working days of the closing of the public subscription.

Please note that online transfer facility shall only be allowed to MEBL's customers

Please note that third party instruments will not be accepted for Margin Money.

In case of intra city payment instruments, the bidders shall ensure that the payment instruments are made "Payable at any Branch". Intra city payment instruments that are not made "Payable at any Branch" will not be accepted.

The Book Runners shall collect an amount of 100% of the Application Money as Margin Money in respect of bids placed by Individual Investors.

The Book Runners shall collect an amount of not less than 25% of the Application Money as Margin Money in respect of bids placed by Institutional Investors.

The Bidder shall provide a valid email address in the Registration Form so that the relevant ID and password can be emailed to them upon registration.

The Bidders can use the User ID and Password to independently place and upward revise their bids online.

**The successful Bidders shall be issued shares only in the form of book-entry to be credited in their respective CDS accounts. All the bidders shall, therefore, provide their CDC account numbers in the bid application and Registration form.**

**The successful Bidders shall be paid cash dividend, if any announced by the Company, only through direct credit in their respective International Bank Account Number (IBAN). All the Bidders, therefore, must provide their IBANs in the Bid Application and Registration Forms.**

#### 12.1.14. PROCEDURE FOR BIDDING

1. A standardized Bidding Form has been prescribed by the Issuer.
2. Registered Investors can submit their bids in person or through representatives at the Bid Collection Centers during the bidding dates or can place their bids online at <https://bkb.psx.com.pk> using the user ID and Password received by them over email upon registration with the Book Runner.
3. The bidding procedure under the Book Building process is outlined below:
  - Bids can be placed either at the “Limit Price” or as a “Step Bid”. The minimum size of a Limit Bid by an Eligible Investor shall not be less than PKR 1,000,000/- (Rupees One Million) and in case of a Step Bid, the amount of any step shall also not be less than PKR 1,000,000/- (Rupees One Million).
  - The investors may place their bids through any of the Bid Collection Centers established pursuant to the requirements of sub-regulation 10 of regulation 8 of the PO Regulations. Please see section 10 for addresses and contact detail of persons at the Bid Collection Centers.
  - The persons at the Bid Collection Centers shall vet the bid applications and accept only such bid applications that are duly filled in and supported by pay order, demand draft or a bank receipt evidencing transfer of the bid money into the Issuer designated bank account.
  - On receipt of bid application in accordance with the aforementioned regulation, the Book Runner shall enter Bid into the System and issue to the Bidder an electronic receipt bearing name of the Book Runner, name of the bidding center, date and time.
  - The bidding shall commence from 09:00 a.m. and close at 05:00 p.m. on all days of the Bidding Period. The bids shall be collected and entered into the system by the Book-Runner till 05:00 p.m. on the last day of the bidding period.
  - The Bidders shall have the right to revise their bids upwards any time either manually through the Bid Collection Centers or electronically through direct access to the system till 05:00 p.m. on the last day of the Bidding Period.
  - **The Bidders shall NOT make downward revision both in terms of Bid Price and Bid Volume provided that in case of upward revision of the Bid Price, the number of shares Bid for i.e., Bid Volume may be adjusted ensuring that the bid amount or bid money remains the same.**
  - **The Bidders shall not withdraw the Bids.**
  - The Book Runner shall collect full amount of the Bid Amount as Margin Money in respect of bids placed by the High Net worth Individual and not less than twenty five percent (25%) of the Bid Amount as Margin Money in respect of bids placed by the Institutional Investors. However, book runner can waive this margin requirement for institutional investors at its own discretion
  - Payment of Margin Money shall be accepted only through demand draft, pay order or online transfer and third-party payment instruments shall not be accepted.
  - The Book Runner may on its own discretion accept a bid without Margin Money, provided the Book Building Portion is fully underwritten at least at the Floor Price by the Book Runner.

- The Book Runner may reject any bid for reasons to be recorded in writing provided the reason of rejection is disclosed to such bidder. The decision of the Book Runner shall not be challengeable by the Bidder or its associates.
- PSX shall, through the system, display live throughout the bidding period an order book in descending order showing demand for shares at various prices and the accumulated number of shares bid for along with percentage of the total shares issued (the "Order Book"). The Order Book should also show the revised bids and the bids withdrawn. The Order Book shall be accessible through websites of PSX.
- At the close of the Bidding Period, the Strike Price shall be determined on the basis of the Dutch Auction Method.
- Once the Strike Price is determined, all those Bidders whose bids are found successful shall become entitled for allotment of shares.
- The Bidders who have made bids at prices above the Strike Price shall be allotted shares at the Strike Price.
- In case all the bids made above the Strike Price are accommodated and shares are still available for allotment, such available shares will be allotted against the bids made at the Strike Price on proportionate basis as per regulation 9(12) of PO Regulations. The procedure for allotment of shares to successful Bidders is mentioned in Section 13 of the Prospectus.
- The Bidders who have made bids below the Strike Price shall not qualify for allotment of any Ordinary Shares and the Book Runner shall intimate their respective banks for unblocking their Bid Money within one (1) working day of the close of the bidding period and in case of refunds, the refund to such bidders shall be made within three (3) working days from the close of the bidding period.
- Successful bidders shall be intimated, within one (1) working day of the closing of the bidding period, the Strike Price and the number of shares provisionally allotted to each of them. The successful bidders shall be intimated by the Book Runner of their final allocation after subscription of the retail portion of the Issue.
- In case the retail portion of the Issue is not fully subscribed, the unsubscribed shares shall be allotted to the successful bidders on pro-rata basis.
- In case the retail portion of the Issue is oversubscribed, the allotment shall be made in the manner given in section 13.
- Upon intimation by the Book Runner of final allocation, successful institutional bidders shall deposit their balance margin within (3) days of such intimation. **Where a successful Bidder defaults in payment of shares allotted to it, the Margin Money deposited by such Bidder shall be forfeited to the Book Runner.**
- Final allotment of shares out of the Book Building Portion shall be made after receipt of full subscription money from the successful Bidders; however, shares to such Bidders shall be credited at the time of credit of shares out of the retail portion.
- The successful Bidders shall be issued shares only in Book Entry Form to be credited in their respective CDS Accounts. All the bidders shall, therefore, provide their CDS Account Numbers in the Registration Form.
- The Designated Institution shall continue to display on its website, the data pertaining to the Book Building and determination of the Strike Price for a period of at least three working days after closure of the Bidding Period.
- The Book-Runner shall ensure that subscription money received against the bids accepted shall not be released to the Issuer by the Banker to the Book Building Portion until:
  - credit of all shares allotted to retail investors; and
  - Issuance of NOC by the PSX.

#### 12.1.15. PAYMENT FOR BOOK BUILDING PORTION

The Issuer has opened a bank account for collection of applications' money related to Book Building Portion.

The Bidders shall draw demand draft or pay order in favor of "**Symmetry Group Limited Book Building Account**" or online transfer of the Bid money into the respective Book Building account and submit the demand draft, pay order or bank receipt at the designated Bid Collection Centers either in person or through facsimile along with a duly filled in Registration Form.

For online transfer the payment shall be made into the Account **0196-0108364477** with the Account Title "**Symmetry Group Limited Book Building Account**". Please note that online transfer facility shall only be allowed for customers.

CASH MUST NOT BE SUBMITTED WITH THE BIDDING FORM/REGISTRATION FORM AT THE BID COLLECTION CENTER NOR DEPOSITED DIRECTLY OR VIA ONLINE TRANSFER IN THE ISSUER'S DESIGNATED BANK ACCOUNT. BID AMOUNT MUST BE PAID THROUGH PAY ORDER, BANK DRAFT OR ONLINE TRANSFER DRAWN / TRANSFER IN FAVOR OF "SYMMETRY GROUP

LIMITED – BOOK BUILDING” IN A MANNER ACCEPTABLE TO THE BOOK RUNNER. **PLEASE NOTE THAT THIRD PARTY PAYMENT INSTRUMENTS WILL NOT BE ACCEPTED.**

The Collection Banks shall keep and maintain the bid money in the said account. Once the shares allotted under the retail portion have been credited, the Consultant to the Issue, after obtaining NOC from PSX, may request in writing to the Banker to the Book Building Portion for transfer of the money of the successful and accepted applications to the Issuer’s account(s).

#### **PAYMENT PROCEDURE**

The payment procedures for a Limit Bid or a Step Bid are explained below:

##### **▪ PAYMENT FOR LIMIT BID**

If investors are placing their bids as a Limit Bid then they shall deposit the Margin Money based on the number of shares they are bidding for at their stated bid price.

For instance, if an investor is applying for 1 million shares at a price of PKR 20.00/- per share, then the total Application Money would amount to PKR 20 million. In such a case, (i) Individual Investor shall deposit PKR 20 million in the Book Building account as the bid amount which is 100% of PKR 20 million; and (ii) Institutional Investor shall deposit at least PKR 5million in the Book Building account as the Margin Money which is 25% of PKR 20 million.

##### **▪ PAYMENT FOR STEP BID**

If an investor is placing a Step Bid which is a series of Limit Bids at increasing prices, then he/she/it shall deposit the Margin Money / bid money based on the total number of shares he/she/it is bidding for at his/her/its stated bid prices.

For instance, if the investor bids for 0.70 million shares at PKR 20.00/-per share, 0.60 million shares at PKR 20.25/-per share and 0.50 million shares at PKR 20.50/- per share, then in essence the investor has placed one Step Bid comprising three limit bids at increasing prices. The Application Money would amount to PKR 36.4 million, which is the sum of the products of the number of shares bid for and the bid price of each limit bid. In such a case, (i) Individual Investors shall deposit PKR 36.4 million in the Book Building Account as Margin Money which is 100% of PKR 36.4 million and (ii) Institutional Investors shall deposit at least PKR 9.1 million in the Book Building Account as Margin Money which is 25% of PKR 36.5 million.

#### **12.1.16. PAYMENT BY FOREIGN INVESTORS**

Companies are permitted under paragraph 6 (with specific reference to sub para (B) (I)) of Chapter 20 of the State Bank of Pakistan’s (“SBP”) Foreign Exchange Manual (the “Manual”) to issue shares on repatriation basis to non-residents who are covered under paragraph 6 (A) of Chapter 20 of the Manual, i.e. (I) A Pakistan national resident outside Pakistan, (II) A person who holds dual nationality including Pakistan nationality, whether living in or outside Pakistan, (III) A foreign national, whether living in or outside Pakistan and (IV) A firm (including a partnership) or trust or mutual fund registered and functioning outside Pakistan, excluding entities owned or controlled by a foreign government, provided the issue price, is paid in foreign exchange through normal banking channel by remittance from abroad or out of foreign currency account maintained by the subscriber/purchaser in Pakistan.

Non-residents who wish to bid for the subscription of shares being offered via book building can remit the subscription money through an Authorized Dealer directly to the book building accounts opened by the Company as given in section 13 (xiv)(3) of this Prospectus, however, those non-residents who wish to subscribe shares out of the general public portion may contact any of the bankers to the issue (retail portion) for taking instructions regarding payment of subscription money against shares offered to general public / retail investors. List of bankers to the Issue for retail portion is available on page 1 and section 13 of this Prospectus.

The shares issued to non-resident shareholders shall be intimated by the Company to the designated Authorized Dealer, along with the documents prescribed in the Manual within 30 days of issue.

Non-residents who are covered under paragraph 6 (A) of Chapter 20 of the Manual do not require SBP’s approval to invest in the shares being issued in terms of this Prospectus. Furthermore, under paragraph 7 (vii) of Chapter 20 of the Manual the Authorized Dealer shall allow repatriation of dividends, net of applicable taxes and proceeds on sale of listed shares (i.e., divestment proceeds) not exceeding the market value less brokerage/commission on provision of prescribed documents.

Payments made by non-residents shall be supported by proof of receipt of foreign currency through normal banking channels. Such proof shall be submitted along with the Application by the non-residents.

#### **12.1.17. PROCEDURE FOR REJECTION OF BIDS**

In terms of regulation 9 (7) of the PO Regulations, the Book Runner may reject any Bid placed by a Bidder for reasons to be recorded in writing provided the reason of rejection is disclosed to such Bidder. Decision of the Book Runner shall not be challengeable by the Bidder or any of its associates.

#### **12.1.18. TIME FRAME FOR UPWARD REVISION OF BIDS BY THE BIDDERS**

The registered investors may revise their Bids upwards any time either manually through the Bid Collection Centers or electronically through direct access to the system till 05:00 p.m. on the last day of the Bidding Period. An investor will not be allowed to place or revise a bid with a price variation of more than 10% of the prevailing indicative strike price. NO DOWNWARD REVISION BOTH IN TERMS OF BID PRICE AND BID VOLUME IS ALLOWED PROVIDED THAT IN CASE OF UPWARD REVISION OF THE BID PRICE, THE NUMBER OF SHARES BID FOR I.E. BID VOLUME MAY BE ADJUSTED ENSURING THAT THE BID AMOUNT OR BID MONEY REMAINS THE SAME. HOWEVER, NO WITHDRAWAL OF BID IS ALLOWED.

#### **12.1.19. TEN PERCENT (10%) PRICE VARIATION**

An investor will not be allowed to place or upward revise a bid with a price variation of more than ten percent (10%) of the prevailing Indicative Strike Price subject to Floor Price and Price Band I.e., Bid Price must not be below the Floor Price and must not exceed 40% of the Floor Price which is upper limit of Floor Price. Please note that the Indicative Strike Price may not be constant and may keep on changing during the bidding period. Therefore, the 10% range will also change with the changing Indicative Strike Price. For Example, if the Floor Price is PKR 4.25 per share and Indicative Strike Price at any given point in time during the bidding period is PKR 4.25 per share, registered bidders may place or revise their bids at/to any price between PKR 4.25 per share to PKR 4.68 per share. If at any given point in time during the bidding period, the Indicative Strike Price changes from PKR 4.5 per share to PKR 4.75 per share, the registered bidders may place or upward revise their bids at/to between PKR 4.75 per share to PKR 5.23 per share. Please note that the 10% range on the lower side cannot go below the floor price and cannot exceed the upper cap of 40% of the floor price i.e. PKR 5.95 per share. The price range of 10% applicable at any given point in time during the bidding period will also be displayed on the bid screen available at the website of PSX. RESTRICTION ON DOWNWARD REVISION OR WITHDRAWAL OF BIDS BY THE BIDDER

Under regulation 10(2)(vi) of the PO Regulations the Bidders shall not make downward revision both in terms of Bid Price and Bid Volume provided that in case of upward revision of the Bid Price, the number of shares Bid for i.e., Bid Volume may be adjusted ensuring that the bid amount or bid money remains the same. Under regulation (10)(2)(vii) of the PO Regulations the Bidders shall not be allowed to withdraw Bids..

#### **12.1.20. PROCEDURE FOR WITHDRAWAL OF ISSUE**

1. In accordance with regulation 8 (16) of the PO Regulations, in case the Issuer does not receive bids for the number of shares allocated under the Book Building Portion at the Floor Price, the Issue shall be cancelled and the same shall be immediately intimated to the Commission and PSX and the Margin Money shall be refunded to the bidders immediately but not later than three (3) working days of the closing of the Bidding Period.
2. In accordance with regulation 8 (17) of the PO Regulation, the Book Building process will be considered as cancelled if the total number of bids received is less than forty (40).

#### **12.1.21. BASIS OF ALLOTMENT OF SHARES**

Bidders shall be allowed to place bids for one hundred percent (100%) of the Issue size and the Strike Price shall be the price at which one hundred percent (100%) of the Issue is subscribed via the Dutch Auction Method.

Once the Strike Price is determined, all those Bidders whose bids have been found successful shall be provisionally allotted 75% of the Issue size i.e., 75,930,061 Ordinary Shares.

In order to be a successful Bidder in the Book Building process, the bid price would either be higher than the Strike Price or at the Strike Price.

For allocation of shares via Book Building, priority shall be given to the bids placed at the highest price. The bidders, who have made bids at prices above the Strike Price, will be provisionally allocated 75% of the shares successfully bid for, at the Strike Price. The differential between the bid price and Strike Price, would be refunded based on the total number of shares bid for.

Bidders who had placed Bids at the Strike Price will be provisionally allotted seventy-five (75%) of the shares successfully bid for, at the Strike Price, on proportionate basis.

Bids made below the Strike Price shall not qualify for allotment of shares and their Margin Money will be refunded.

Final allotment of shares to the successful bidders would be determined after determination of the public response to the Retail Portion of the Issue.

In the event the retail portion is undersubscribed, the unsubscribed portion would be allotted to the successful bidders, on a pro-rata basis as per regulation 11(5) of the PO Regulation. Excess funds, if any, would be refunded to the bidders after allotment of the unsubscribed shares.

Final allotment of shares out of the Book Building portion shall be made after subscription of the retail portion and receipt of full subscription money from the successful Bidders; however, shares to such Bidders shall be issued simultaneously with issuance of shares to retail investors, in the form of book-entry to be credited in their respective CDS Accounts. All the Bidders shall, therefore, provide number of their respective CDS Accounts in the Bid application as required under regulation 9 (16) of the PO Regulations.

#### **12.1.22. REFUND OF MARGIN MONEY**

The Bidders who have made Bids below the Strike Price shall not qualify for allotment of securities and the Book Runner shall intimate their respective banks for unblocking, where required, their Bid Money within one (1) working day of the close of the bidding period as required under regulation 9(13) of the PO Regulations and the refunds, where required to such bidders shall be made within three (3) working days from the close of the bidding period.

**The bid money of bidders who have undertaken to subscribe the unsubscribed retail portion shall remain deposited or blocked till allotment of shares of unsubscribed retail portion, if any, to them on pro-rata basis.**

#### **12.1.23. PUBLICATION OF SUPPLEMENT TO THE PROSPECTUS**

In accordance with regulation 11 (1) of the PO Regulations within three (3) working days of the closing of the Bidding Period, Supplement to the Prospectus shall be published at least in all those newspapers in which the Prospectus was earlier published and also disseminated through PSX.

The Supplement to the Prospectus would contain information relating to the Strike Price, the Offer Price and Category-wise breakup of the successful Bidders along with the number of shares provisionally allocated to them. Format of the Supplement is given on page 2 of this Prospectus.

**Public subscription for the shares shall be held at any date(s) within thirty days (30) of the publication of the Prospectus but not earlier than seven (7) days of such publication.**

### 13.4. E-IPO SYSTEM

e-IPO refers to electronic submission of applications for subscription of securities offered in an IPO. The following systems are available for e-IPOs:

### 13.5. PSX'S E-IPO SYSTEM (PES):

In order to facilitate investors, PSX has developed an e-IPO System ("PES") through which electronic applications can be filed for subscription of securities offered to the general public. PES can be accessed through the web link (<https://eipo.psx.com.pk>).

Investors can register themselves online at any time 24/7. On behalf of an investors, registration can also be done by:

- the TREC Holder with whom the investor has a sub-account, or
- the Bank with whom the investor has a bank account.

An e-IPO application can be filed by an investor during the public subscription period which shall close at midnight on August 18, 2023. On behalf of investors, e-IPO applications can also be filed by:

- the TREC Holder with whom the investor has a sub-account, or
- the Bank with whom the investor has a bank account.

Subscription money can be paid by the investor through 1LINK or NIFT. On behalf of investors, subscription money can also be paid by:

- the TREC Holder with whom the investor has a sub-account, or
- the Bank with whom the investor has a bank account.

In case of queries regarding PES, investors may contact Mr. Farrukh Shahzad at phone number: 111-001-122 or (021)-35274401-10, and email: [jtss@psx.com.pk](mailto:jtss@psx.com.pk)

Tutorial for PES can be found on the weblink i.e. <https://eipo.psx.com.pk/EIPO/home/index.930>

#### **Centralized e-IPO System (CES):**

CES can be accessed through the web link ([www.cdceipo.com](http://www.cdceipo.com)). Payment of subscription money can be made through 1LINK's member banks available for CES.

For making application through CES, investors must be registered with CES. Registration can be done under a self-registration process by filling the CES registration form, which is available 24/7 all throughout the year.

In addition to the above, investors/sub-account holder(s) can request their respective TREC Holders who are Participants in Central Depository System (CDS) to make electronic subscription on their behalf for subscription of securities of a specific company by authorizing (adding the details of) their respective Participant(s) in CES. Consequently, authorized Participants will electronically subscribe on behalf of their sub-account holder(s) in securities offered through Initial Public Offerings and will also be able to make payment against such electronic subscriptions through all the available channels mentioned on CES only after receiving the subscription amount from the sub-account holder(s). To enable this feature, the CDS Participant may request CDC to activate his ID on the CES portal. For queries regarding CES, investors may contact CDC at phone number: 0800 – 23275 (CDCPL) and e-mail: [info@cdcpak.com](mailto:info@cdcpak.com) or contact Mr. Owais Anwer at Phone 021-111-111-500 Ext 500 and email: [owais\\_anwer@cdcpak.com](mailto:owais_anwer@cdcpak.com).

2. Attested photocopies of the documents mentioned in 8.7 (i) must be produced for verification to the Banker to the Issue and the applicant's banker (if different from the Banker to the Issue) at the time of presenting the application. The attested copies, will after verification, be retained by the bank branch along with the application.

### 13.8. ADDITIONAL INSTRUCTIONS FOR INVESTORS

1. Only one application will be accepted against each account, however, in case of joint account, one application may be submitted in the name of each joint account holder.
2. Joint application in the name of more than two persons will not be accepted. In case of joint application each applicant must sign the application, form and submit attested copies of their CNICs / NICOP / Passport. The share certificates will be dispatched to the person whose name appears first on the application form while in case of CDS, it will be credited to the CDS account mentioned on the face of the form and where any amount is refundable, in whole or in part, the same will be refunded by cheque or other means by post, or through the bank where the application was submitted, to the person named first on the application form, without interest, profit or return. Please note that joint application will be considered as a single application for the purpose of allotment of shares.
3. Subscription money must be paid by check drawn on applicant's own bank account or pay order / bank draft payable to one of the Bankers to the Issue "**Symmetry Group Limited – General Subscription**" and crossed "**A/C PAYEE ONLY**".
4. For the applications made through pay order / bank draft, it would be permissible for a Banker to the Issue to deduct the bank charges while making refund of subscription money to unsuccessful applicants through pay order / bank draft individually for each application.
5. The applicant should have at least one bank account with any of the commercial banks. The applicants not having a bank account at all (non-account holders) are not allowed to submit application for subscription of shares.
6. Applications are not to be made by minors and / or persons of unsound mind.
7. Applicants should ensure that the bank branch, to which the application is submitted, completes the relevant portion of the Application Form.
8. Applicants should retain the bottom portion of their Application Forms as provisional acknowledgement of submission of their applications. This should not be construed as an acceptance of the application or a guarantee that the applicant will be allotted the number of shares for which the application has been made.
9. Making of any false statements in the application or willfully embodying incorrect information therein shall make the application fictitious and the applicant or the bank shall be liable for legal action.
10. Bankers to the Issue are prohibited to recover any charges from the subscribers for collecting subscription applications. Hence, the applicants are advised not to pay any extra charges to the Bankers to the Issue.
11. It would be permissible for a Banker to the Issue to refund subscription money to unsuccessful applicants having an account in its bank by crediting such account instead of remitting the same by cheque, pay order or bank draft. Applicants should, therefore, not fail to give their bank account numbers.
12. Submission of false and fictitious applications is prohibited and such applications' money may be forfeited under section 87(8) of the Securities Act, 2015.

### 13.23. WITHHOLDING TAX ON DIVIDENDS

Dividend distribution to shareholders will be subject to withholding tax under section 150 of the Income Tax Ordinance, 2001 as specified in Part III Division of the First Schedule of the said ordinance or any time-to-time amendments therein. In terms of the provision of Section 8 of the said ordinance, said deduction at source, shall be deemed to be full and final liability in respect of such profits in case of persons only. The following are the rates:

- For filers of Income Tax Returns: 15.00%
- For non-filers of Income Tax Return: 30.00%

### 13.24. TAX ON BONUS SHARES

As per section 236Z of the Income Tax Ordinance 2001, amending the definition of 'income', expanding the scope of 'income from other sources' and introducing a withholding tax provision which is in effect from July 1, 2023. In this regard every company will be required to collect 10% tax from each shareholder at the time of issuance of bonus shares. The rate of tax for inactive taxpayers shall be 20%. The value for such purpose shall be taken as equivalent of day-end price on the first day of book closure in the case of listed company..

### 13.25. INCOME TAX

The income of the Company is subject to Income Tax under the Income Tax Ordinance, 2001.

### 13.26. DEFERRED TAXATION

Deferred tax is provided using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts, for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry forwards of unused tax credits and unused tax losses can be utilized.

<sup>52</sup> www.taxsummaries.pwc.com

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profits will allow deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset only if there is a legally enforceable right to offset current tax assets and liabilities and they relate to the income tax levied by the same tax authority.

As of June 30<sup>th</sup>, 2022, the company has no deferred tax liability.

### **13.27. SALES TAX**

General Sales Tax is applicable as per Sales Tax Act, 1990 on supplies and services. Sales tax is applicable on services as per Punjab Sales Tax on Services Act, 2012 by Punjab Revenue Authority. Sales tax is applicable on services as per Sindh Sales Tax on Services Act, 2011 by Sindh Revenue Board.

### **13.28. SALES TAX ON SALE / PURCHASE OF SHARES**

Under the Constitution of Pakistan and Articles 49 of the 7<sup>th</sup> NFC Award, the Government of Sindh, Government of Punjab, Government of Khyber Pakhtunkhwa and Government of Baluchistan have promulgated the Sindh Sales Tax on Services Act, 2011, Punjab Sales Tax on Services Act, 2012, Khyber Pakhtunkhwa Sales Tax on services through Khyber Pakhtunkhwa Finance Act, 2013 and the Baluchistan Sales Tax on services Act, 2015 respectively. The Sindh Revenue Board, the Punjab Revenue Authority, and the Khyber Pakhtunkhwa Revenue Authority and the Baluchistan Revenue Authority administer and regulate the levy and collection of the Sindh Sales Tax ("SST"), Punjab Sales Tax ("PST"), Khyber Pakhtunkhwa Sales Tax ("KST") and Baluchistan Sales Tax ("BST") respectively on the taxable services provided or rendered in Sindh, Punjab or Khyber Pakhtunkhwa provinces respectively.

The value of taxable services for the purpose of levy of sales tax is the gross commission charged from clients in respect of purchase or sale of shares in a Stock Exchange. The above-mentioned Acts levy a sales tax on Brokerage at the rate of 13% in Sindh, 16% in Punjab and in Baluchistan and 15% in Khyber Pakhtunkhwa. Sales tax charged under the aforementioned Acts is withheld at source under statutory requirements.

### **13.29. TAX CREDIT FOR INVESTMENT IN IPO**

Section 62 of the Income tax Ordinance, 2001 was omitted through Finance Act, 2022 and now no tax credit is being allowed for investment in new shares offered to the public by a public company listed on a stock exchange in Pakistan.
